GEMINI ENTERPRISE AGENT KIT

Gemini Enterprise licence, ready agents and skills, adaptation and operations

Agents for recurring knowledge work, adapted to the customer's sources and run month by month

1 **Why an agent kit**
Recurring knowledge work in organisations, and what Agent Kit is. p. 2 – 3

2 **How it works and the agents**
Architecture, the agent catalogue, regulation tracking, contracts, further agents. p. 4 – 8

3 **How it runs**
Three service tiers, work flow and timeline, what the customer provides. p. 9 – 11

4 **Experience and next step**
Gemini Enterprise experience, about Komtaş, and how it starts. p. 12 – 13

Recurring Knowledge Work in Organisations

KOMTAS

Much of the daily work in legal, compliance, finance and marketing teams is reading, searching, comparing and summarising. The same questions come up in most organisations.

01 · RECURRING KNOWLEDGE WORK

Following regulatory change

- Which new regulations affect the company?
- What changed abroad, in export markets?
- Who has to act on it, and by when?

Many sources, checked by hand

Regulation tracking

Preparing and reviewing contracts

- Which template and clauses apply?
- Where does this draft differ from the company's position?
- Which clauses need a lawyer's attention?

Legal time spent on routine steps

Contracts

Waiting for a report

- What were sales by region last month?
- Why did this figure change?
- Can the question be asked without a new report?

Simple questions wait in the report queue

Reporting «GÜNER DOĞRULASIN»

Finding the right document

- Where is the latest version of the policy?
- Which past project covered this topic?
- Is the answer in Drive, SharePoint or e-mail?

Knowledge is spread across systems

Internal search «GÜNER DOĞRULASIN»

Producing visual content

- Can product images be made for every channel?
- Can catalogue entries be enriched faster?
- Can a short product video be drafted?

Content needs grow faster than teams

Marketing «GÜNER DOĞRULASIN»

Licences bought, little use

- Gemini or Workspace licences are in place
- Few users go beyond simple chat
- No agent is tied to a real business task

Licence value is not realised

Adoption «GÜNER DOĞRULASIN»

What Agent Kit Is

KOMTAS

A package that combines the Gemini Enterprise licence with a library of ready agents and skills, adapts them to the customer's sources and processes, and operates them after go-live.

02 · WHAT IT IS

FOUR PARTS

Licence
Gemini Enterprise, through a separate licence proposal

Ready agents
a catalogue of agents and skills

Adaptation
to the customer's sources, topics and users

Operations
monthly follow-up and new skills

FOR WHOM

Organisations that use Google Workspace or Microsoft 365 and want agents for specific business tasks.
«GÜNER DOĞRULASIN»

WHAT IT PRODUCES

Agents in daily use → Trained users → Monthly operations

Agents support, people decide
Agent output is a draft, a summary or an alert. Decisions and final reviews, for example on contracts, stay with the responsible people.

WHEN IT IS USEFUL

«GÜNER DOĞRULASIN»

- Gemini or Workspace licences are in place, but use is low
- A regulated sector with many legal sources
- A high volume of contracts
- Internal documents are hard to search

WHAT IT IS NOT

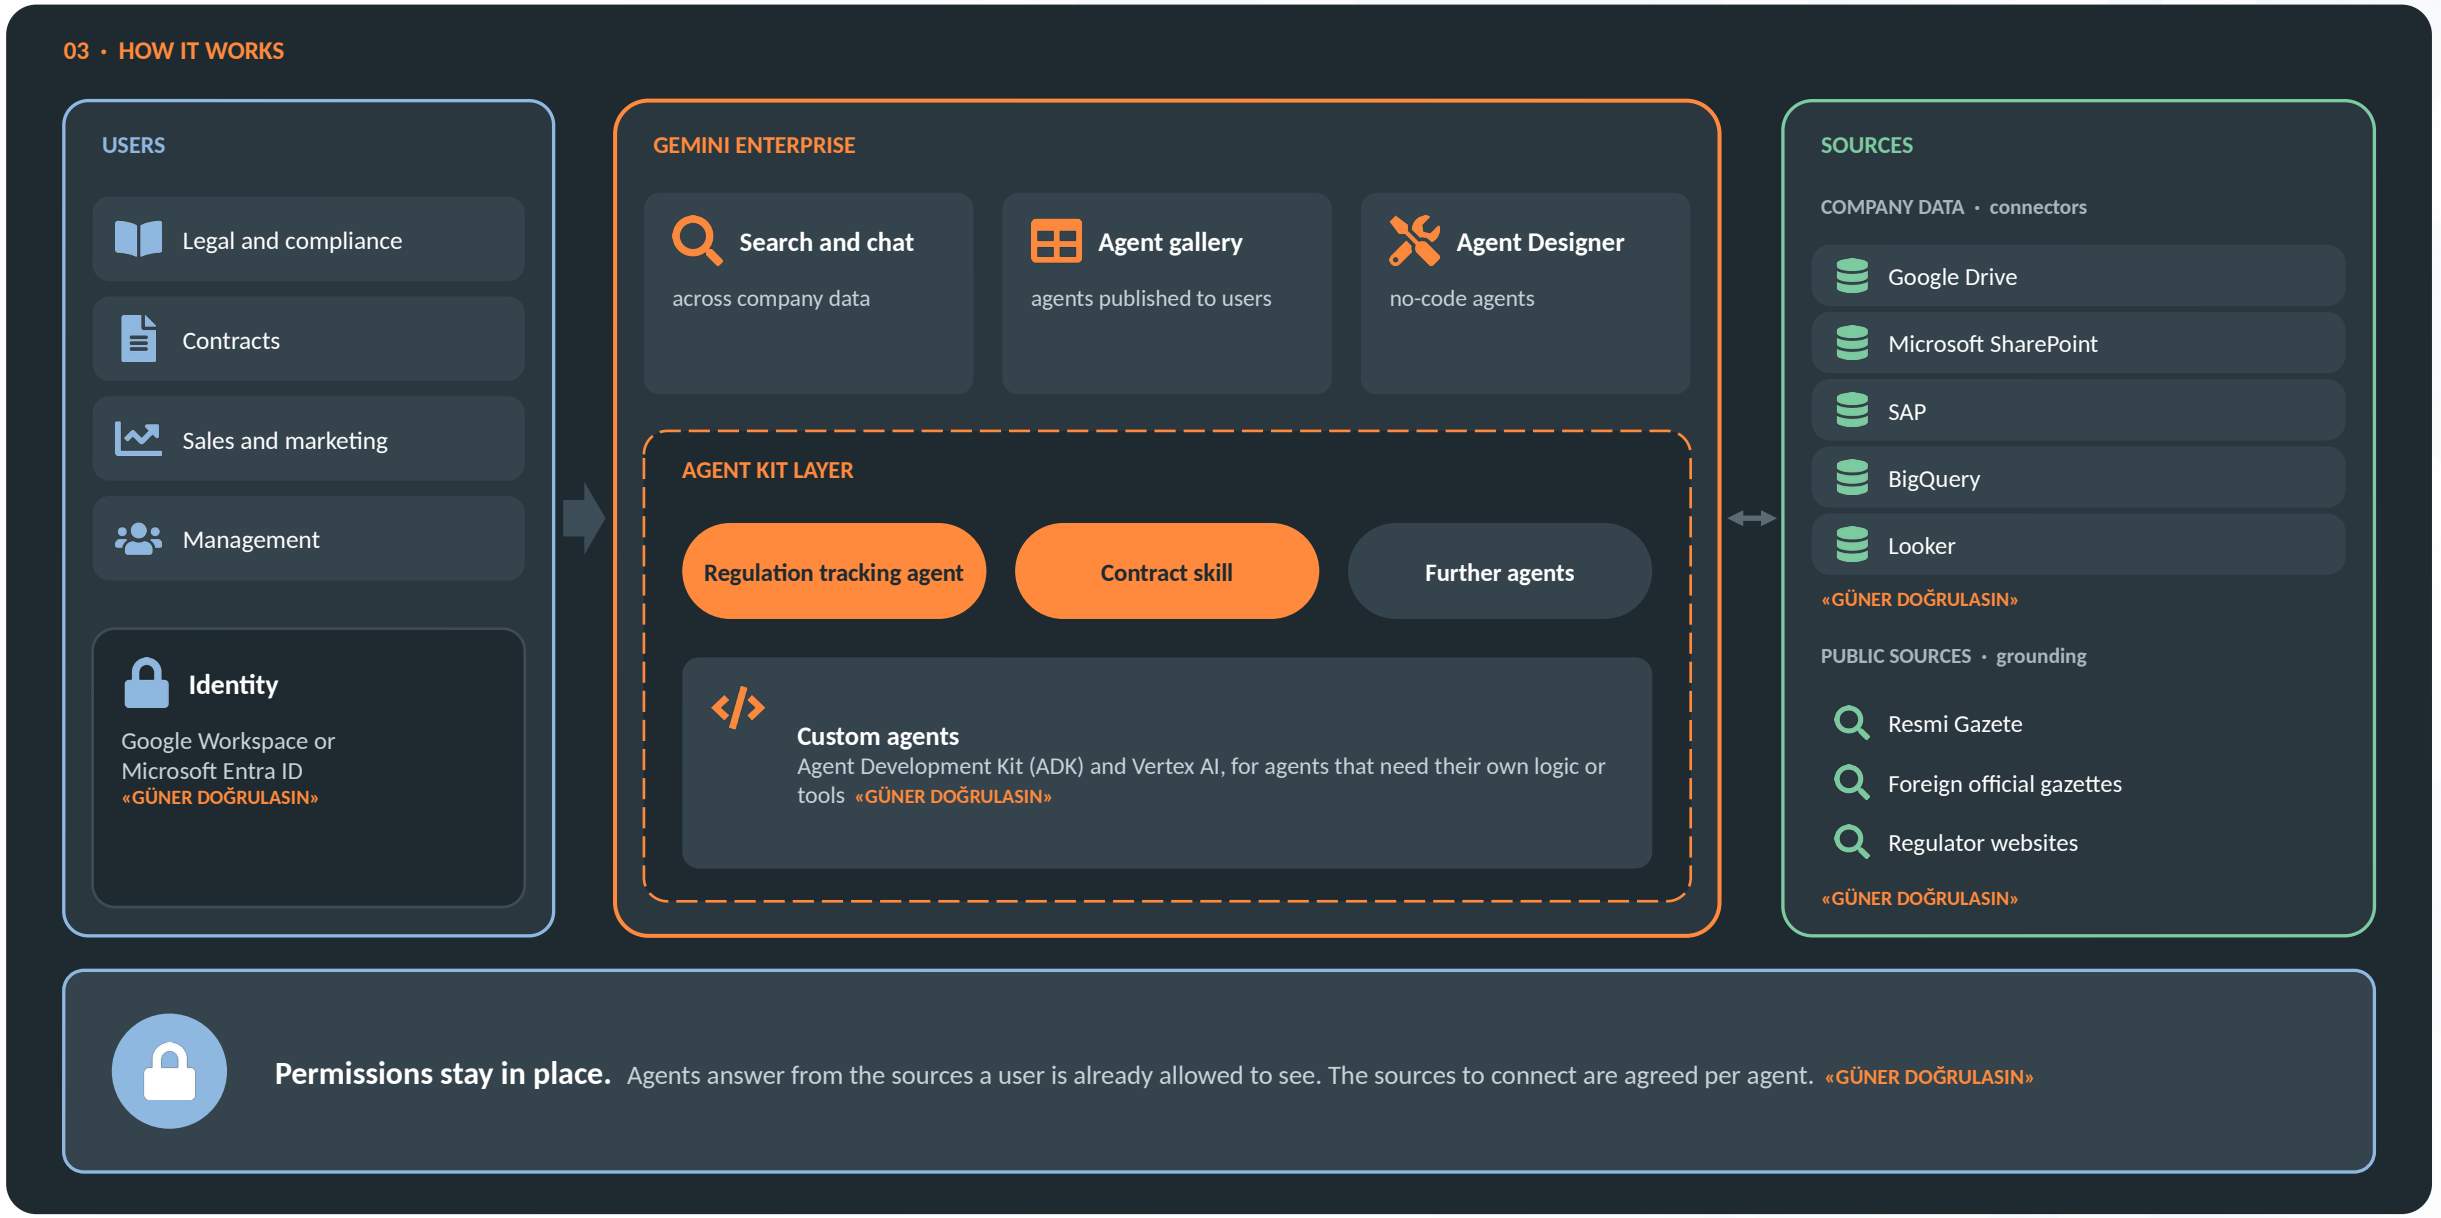

«GÜNER DOĞRULASIN»

- AI governance framework (policy, risk classes, inventory) — AI Governance Readiness
- Organisational readiness assessment — AI Readiness
- Predictive ML models — Predictive Analytics
- Legal advice; custom model training; data cleansing in source systems
- Integration with systems that have no connector or API

How It Works

KOMTAS

Users work in Gemini Enterprise. The agents of the kit sit on top of it and reach company data through connectors and public sources through grounding.

Agent Catalogue

KOMTAS

The agents and skills in the kit. Two are ready and adapted per customer; the others are module candidates whose scope is agreed per customer.

CATALOGUE · OVERVIEW

«GÜNER DOĞRULASIN»

#	AGENT / SKILL	PROBLEM	INPUT SOURCES	OUTPUT	SECTOR FIT	STATUS
1	Regulation tracking agent	Regulatory change is followed by hand across many sources and countries	Resmi Gazete, foreign official gazettes, regulator sites, topic list	Periodic alert summary with relevance tag and source link	Any regulated sector	Ready
2	Contract preparation / review skill	Drafting and checking contracts takes legal time	Templates, clause library, review playbook and red lines	First draft; review note with flagged clauses	All sectors	Ready
3	Conversational analytics on SAP data	«...»	SAP data «...»	Answers to sales and marketing questions «...»	«...»	Candidate
4	Product video and image generation	«...»	Product information «...»	Images and short videos for marketing «...»	«...»	Candidate
5	Catalogue image enrichment	«...»	Catalogue entries «...»	Enriched catalogue images «...»	«...»	Candidate
6	Looker + Gemini Enterprise	«...»	Looker models «...»	Questions on Looker data in Gemini «...»	«...»	Candidate

Ready: in use, adapted to the customer's sources, topics and users. Candidate: built before, scope and fit agreed with the customer.

Regulation Tracking Agent

KOMTAS

Scans the Official Gazette of Türkiye (Resmi Gazete) and foreign legislation sources, filters by the customer's topics and sends each change to the person who owns it.

04 · REGULATION TRACKING

PROBLEM Legal and compliance teams follow regulatory change by hand across many sources and countries. Changes can be noticed late, and it is not always clear who has to act.

INPUTS «GÜNER DOĞRULASIN»

- Resmi Gazete
- Foreign official gazettes and regulator sites
- Customer's topic list and keywords
- Internal policy owners

WHAT THE AGENT DOES «GÜNER DOĞRULASIN»

Scan
new publications in the agreed sources

Filter
by the customer's topic list

Summarise
each relevant change, with a relevance tag

Route
to the owner of the topic

OUTPUT «GÜNER DOĞRULASIN»

- Periodic alert summary
- Relevance tag and source link for each item
- Routed to the responsible owner
- Searchable history of past alerts

SECTOR FIT «GÜNER DOĞRULASIN»

Manufacturing and export · Energy · Finance · Health · Food

Any sector that follows legal change. The agent is sector-independent; topics, countries and recipients change per customer.

Adapted per customer. Countries and languages, topic list and keywords, alert recipients and frequency. «GÜNER DOĞRULASIN»

Contract Preparation and Review Skill

KOMTAS

Prepares a first draft from the company's templates and checks a contract against the company's position. The output supports the legal team; the final review stays with lawyers.

05 · CONTRACTS

PROBLEM Drafting from templates and checking incoming contracts against the company's position takes legal time, much of it on routine steps.

INPUTS

«GÜNER DOĞRULASIN»

- Contract templates
- Clause library
- Review playbook and red lines

Prepare

first draft from a template

«GÜNER DOĞRULASIN»

- Template chosen for the contract type
- Clauses filled from the clause library
- Open points left visible for the lawyer

OUTPUT

First draft

Review

check against the company's position

«GÜNER DOĞRULASIN»

- Contract compared with the playbook
- Clauses that differ or cross a red line flagged
- Suggested wording from the clause library

OUTPUT

Review note with flagged clauses and deviations

Support, not legal advice. The skill prepares and points out; lawyers decide. Final review and approval of every contract stay with the legal team.

Adapted per customer. Templates, clause library, playbook and red lines are the customer's own; the skill is set up on them. «GÜNER DOĞRULASIN»

Further Agents

KOMTAS

Gemini work already carried out in other business areas. These are module candidates: each is scoped with the customer before it is added to an Agent Pack.

06 · FURTHER AGENTS

Conversational analytics on SAP data

Sales and marketing

Questions on SAP sales data asked in plain language, answered without a new report.

«GÜNER DOĞRULASIN»

Product video and image generation

Marketing

Product images and short videos drafted for different channels.

«GÜNER DOĞRULASIN»

Catalogue image enrichment

Product management

Catalogue entries completed with generated images.

«GÜNER DOĞRULASIN»

Looker + Gemini Enterprise

Analytics

Looker data made available to users in Gemini Enterprise.

«GÜNER DOĞRULASIN»

A new agent, not in the catalogue. A business task with no catalogue agent is taken through discovery and built with Agent Designer, or with ADK and Vertex AI when it needs its own logic or tools. «GÜNER DOĞRULASIN»

Three Service Tiers: Launch, Agent Pack, Run

KOMTAS

Launch puts Gemini Enterprise and a first agent into use. Agent Pack adds agents. Run operates them every month. Tiers can be taken one after another.

07 · SERVICE TIERS

A Launch

set-up and a first agent · 3–6 weeks

- Licence activation and tenant set-up
- Identity: Google Workspace or Entra ID
- Data connections (connectors)
- One ready agent from the catalogue
- User training and adoption support

OUTPUT

Gemini Enterprise in use · first agent live · trained users

«GÜNER DOĞRULASIN»

B Agent Pack

2–3 agents or skills · 4–6 weeks

- Priced per agent
- Discovery of the business task
- Adaptation: sources, instructions, tools
- Test against acceptance criteria
- Go-live

OUTPUT

2–3 agents live · test results per agent · user guidance

«GÜNER DOĞRULASIN»

C Run

monthly · minimum term 12 months

- Monitoring of use and answer quality
- Source and prompt maintenance
- Follow-up of product changes
- User support
- New skills from a monthly capacity

OUTPUT

Monthly report · agents kept up to date · new skills delivered

«GÜNER DOĞRULASIN»

Licence. Gemini Enterprise licences are offered in a separate licence proposal. The service tiers above are priced on their own.

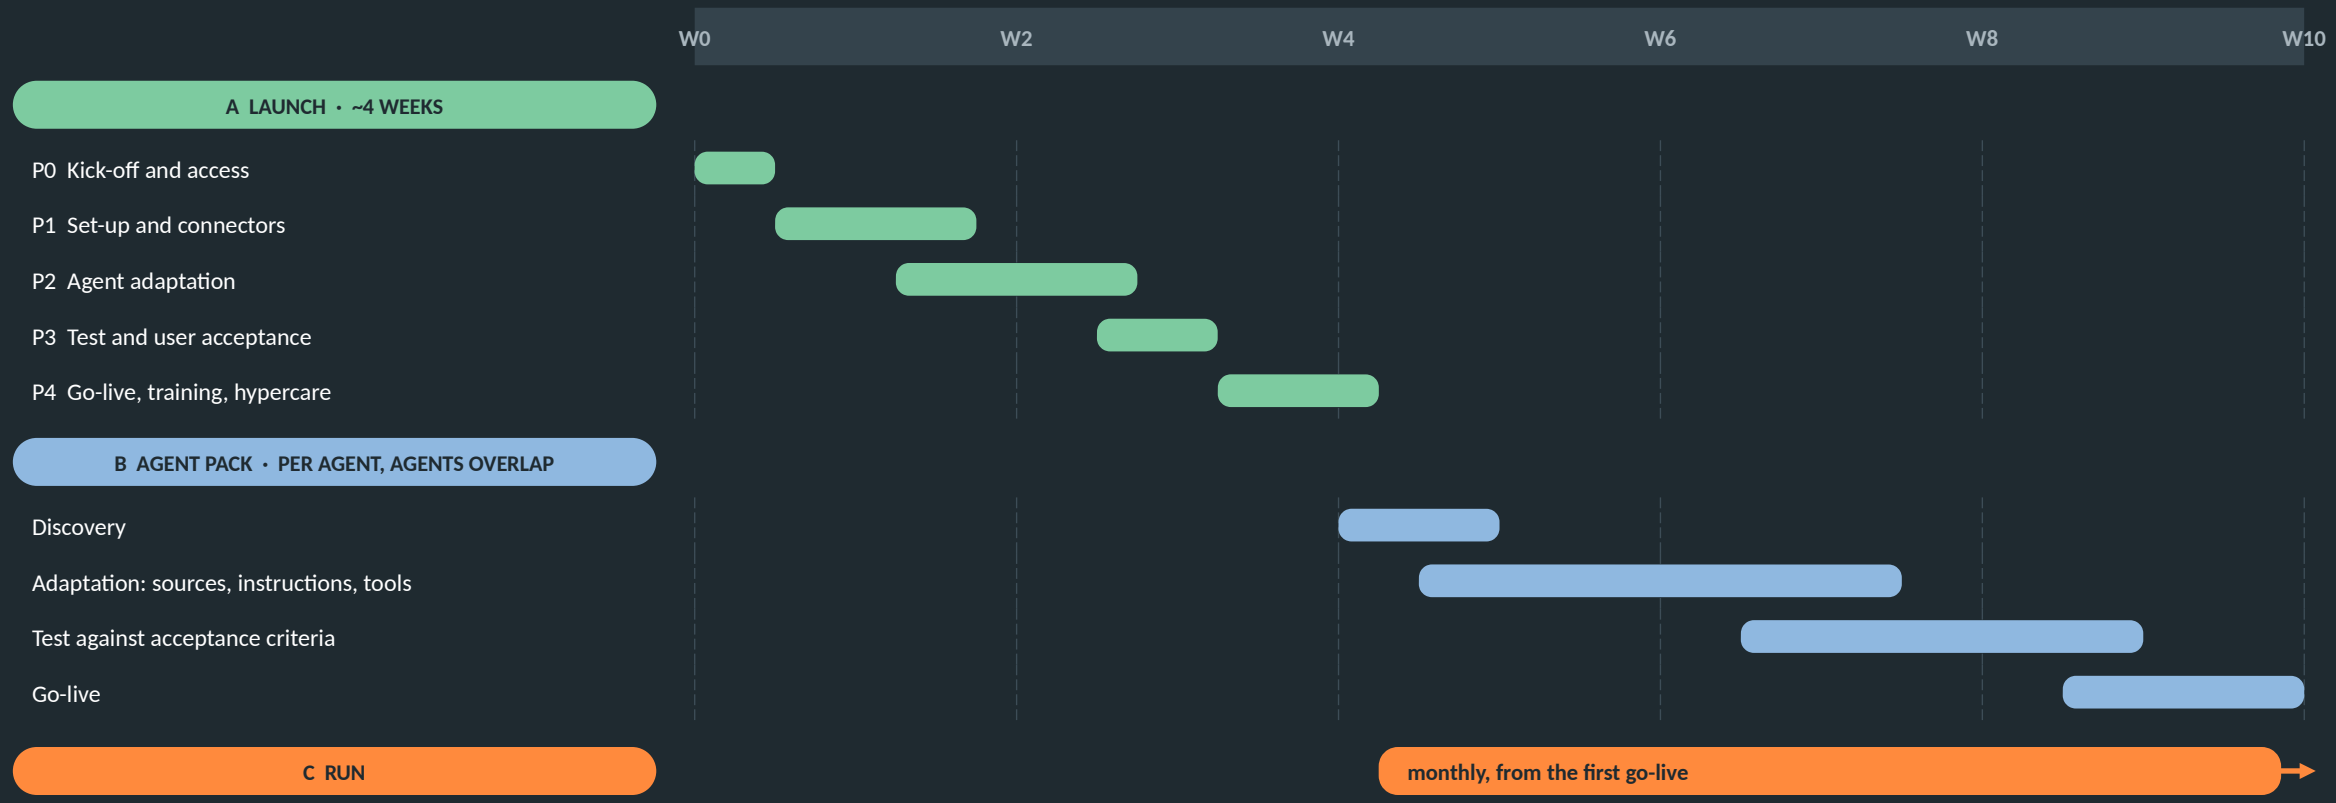

Work Flow and Timeline

KOMTAS

Indicative plan for a medium-size Launch followed by an Agent Pack. The exact plan is set after the discovery call.

08 · WORK FLOW

«GÜNER DOĞRULASIN»

What sets the duration. Users · data sources to connect · number of agents · countries and languages (regulation agent) «GÜNER DOĞRULASIN»

Acceptance per agent. A test set agreed with the customer; criteria such as source coverage, relevance of alerts and correct answers on a sample, with thresholds «NUMBER». «GÜNER DOĞRULASIN»

What the Customer Provides

KOMTAS

What is needed from the customer before and during the work. Most of it is about access to data and the people who own it.

ACCESS AND DATA

«GÜNER DOĞRULASIN»

Licence and admin access
Gemini Enterprise licences and an administrator for the tenant

Access to data sources
permission for each connector, and a data owner per source

Topic list and countries
for the regulation agent: topics, keywords, countries, recipients

Templates and playbook
for the contract skill: templates, clause library, red lines

PEOPLE AND APPROVALS

«GÜNER DOĞRULASIN»

A coordinator
single contact for access, meetings and decisions

A user group
first users for test, training and feedback

Test set and acceptance
sample questions and expected answers, agreed per agent

Legal and KVKK approval
approval to send documents to the service

Legal and KVKK approval is best started at the beginning: connecting document sources depends on it, and it often takes longer than the technical set-up. «GÜNER DOĞRULASIN»

Experience

Gemini Enterprise work Komtaş has carried out. Further references are added per proposal.

09 · EXPERIENCE

1,100

users

Türkiye's largest Gemini Enterprise deployment, 1,100 users

«GÜNER DOĞRULASIN»

GEMINI WORK AT THIS CUSTOMER

Regulation tracking agent
Resmi Gazete and foreign legislation

Contract preparation and review skills
drafting and checking against the company's position

Conversational analytics on SAP data
sales and marketing questions

Product video and image generation
marketing content

Catalogue image enrichment
product management

Looker + Gemini Enterprise
analytics in Gemini

REFERENCES «GÜNER DOĞRULASIN»

«REFERENCE PROJECT»

«REFERENCE PROJECT»

«REFERENCE PROJECT»

What carries over. The agents and skills built in this work form the catalogue of the kit. A new customer starts from adaptation, not from an empty page.

About Komtaş, and the Next Step

Who runs Agent Kit, and what is needed to start.

WHY KOMTAŞ

Google Cloud Premier partner
Komtaş is a Google Cloud Premier partner.

Gemini Enterprise experience
Agents and skills already built and in use (p. 12).

Data, cloud and AI in one team
Connectors, BigQuery and Looker work are handled by the same team.

From set-up to operations
Launch, more agents and monthly operations from one partner.

Since 1989, focused on data · 250+ specialists · offices in Istanbul, Ankara, Izmir and Dubai

NEXT STEPS

1. **Walkthrough** — today — you are here
2. **Discovery call** — users, data sources, agents of interest
3. **Proposal** — service tiers, with a separate licence proposal
4. **Kick-off** — access and connectors, first agent starts

Needed from the customer. A coordinator, the business tasks of interest, the list of data sources and an early start on legal and KVKK approval. «GÜNER DOĞRULASIN»
