BI ASSESSMENT — INTERNAL QUESTION SET

Komtaş internal working file. Not sent to the customer. The deduplicated questions from the 3a and 3b input forms (68 questions) are here; the SERVICE column shows which service the question is asked in. The minimum set needed for the proposal is on the Proposal Set sheet.

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
1	A. Organisation and Proposal Details	BLOCKER	A · B	**Organisation and legal entities in scope — single company or group**	4a/4b · Cover, 1		Not answered		S1
2	A. Organisation and Proposal Details	Assumption	A · B	Proposal addressee — name, title, unit	4a/4b · Cover, 9.2		Not answered		Sales knows
3	A. Organisation and Proposal Details	Assumption	A · B	**Proposal date and expected decision date**	4a/4b · Cover, 9.1 validity		Not answered		Sales knows
4	A. Organisation and Proposal Details	BLOCKER	A · B	Is there an RFP or specification; if so, its number and response format	4a/4b · structure of the whole proposal, 2.4 source column		Not answered	Blocker in B; assumption in A	S1
5	A. Organisation and Proposal Details	Assumption	A · B	**Are there competitors, and who**	4a/4b · emphasis and section weighting		Not answered		Sales knows
6	B. Decision and Problem Definition	BLOCKER	A · B	Which decision will this assessment support — semantic layer investment, tool consolidation, licence renewal, budget justification, restructuring	4a/4b · 1 «DECISION», 2.1		Not answered		S2
7	B. Decision and Problem Definition	BLOCKER	A · B	**Is the expected output a red / amber / green status per heading with findings, or current and target level per dimension with a target-state decision and roadmap**	Service selection — 4a or 4b; 4a · 2.2, 3.1		Not answered	Blocker in 3a; if the answer points to B, 3b is used	S2
8	B. Decision and Problem Definition	Assumption	A · B	Who will make the decision, and when	4a/4b · 6, 9.1 validity		Not answered		S2
9	B. Decision and Problem Definition	Assumption	A · B	**What is the most frequent complaint today — slowness, distrust in the numbers, reports that cannot be found, request backlog**	4a/4b · 1, 3.2 (P1 focus)		Not answered		In P0
10	B. Decision and Problem Definition	Assumption	A · B	Is a licence renewal date approaching	4a/4b · 6 (schedule constraint)		Not answered		Sales knows
11	B. Decision and Problem Definition	Assumption	A · B	**Has a BI assessment (A or other) been done before; what was the result, can the evidence inventory be reused**	4a/4b · 5.1; 4b · baseline comparison		Not answered	A's evidence inventory is reused in B and not charged twice	Sales knows
12	B. Decision and Problem Definition	Assumption	B	How will success be measured — which result counts as "done"	4b · 1		Not answered		In P0
13	C. Scope	BLOCKER	A · B	**Which BI tools are in scope; all of them or some**	4a/4b · 2.1, 2.5		Not answered		S3
14	C. Scope	BLOCKER	A	Are all six headings in scope; is any heading to be excluded	4a · 2.3, «OUT-OF-SCOPE HEADING»		Not answered		S6
15	C. Scope	BLOCKER	B	**Are all twelve dimensions in scope; is any dimension to be excluded**	4b · 2.3, «OUT-OF-SCOPE DIMENSION»		Not answered		S8
16	C. Scope	BLOCKER	A · B	Number of business units in scope	4a/4b · 2.4 (driver 5)		Not answered	Blocker in B; in A written into 2.4 as a statement or assumption	S8
17	C. Scope	Assumption	A · B	**Is any tool, business unit, environment or region to be left out of scope**	4a/4b · 2.5		Not answered		In P0
18	C. Scope	Assumption	B	Are non-production environments in scope	4b · 2.4 (driver 7), 5.1		Not answered		Assumption in proposal
19	C. Scope	Assumption	A · B	**Is operational reporting — ERP or in-application reports — in scope**	4a/4b · 2.5		Not answered		In P0
20	D. Tools and Environment	BLOCKER	A · B	BI tools in use and their versions — Qlik, Power BI, Tableau, MicroStrategy or other; number of tools in use	4a/4b · 2.4 «TECHNOLOGY» (driver 3)		Not answered		S3
21	D. Tools and Environment	Assumption	A · B	**Deployment model — SaaS, on-prem or hybrid**	4a/4b · 2.4, 5.1		Not answered		Assumption in proposal
22	D. Tools and Environment	Assumption	A · B	Data platform(s) feeding BI — DWH, lakehouse, direct source; how many	4a/4b · 2.4 (driver 6), 2.5		Not answered	The feeding layer is covered only through its interface to BI; the layer itself is the subject of DWH / Lakehouse Assessment	S11
23	D. Tools and Environment	Assumption	A · B	**Is there a semantic or metrics layer product**	4a · 2.3 (Metrics & Semantic Layer); 4b · 2.3 (B1)		Not answered		In P0
24	D. Tools and Environment	Assumption	A · B	Number of environments — dev, test, prod	4a/4b · 2.4 (driver 7)		Not answered	In A written into 2.4 as a statement or assumption	S14
25	D. Tools and Environment	Assumption	A · B	**Are there embedded or portal integrations — portal, in-application, customer-facing; how many**	4b · 2.4 (driver 8), 2.3 (B11); 4a · 2.3 (Tooling, Licence & Distribution)		Not answered	Band driver in B; in A asked only for heading coverage	S14
26	E. Scale and Inventory	BLOCKER	A · B	Total number of reports and dashboards	4a/4b · 2.4 (driver 1)		Not answered		S5
27	E. Scale and Inventory	BLOCKER	A · B	**Number of active users and number of licences**	4a/4b · 2.4 (driver 2); 4b · 2.3 (B10)		Not answered	Licence count is asked only in B	S5
28	E. Scale and Inventory	Assumption	A · B	Number of semantic models or datasets	4a/4b · 2.4 (driver 4); 4b · 2.3 (B3)		Not answered	In A written into 2.4 as a statement or assumption	S11
29	E. Scale and Inventory	Assumption	B	**Daily or weekly report open volume**	4b · 2.3 (B9)		Not answered		In P0
30	E. Scale and Inventory	Assumption	B	Number of scheduled distributions	4b · 2.3 (B11)		Not answered		In P0

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
31	E. Scale and Inventory	Assumption	A · B	**Can the most critical reports and metrics be named**	4a/4b · 3.2 (P0 scope, P1 focus); 4b · 5.3		Not answered	In the proposal set for B (S12); asked in P0 for A	S12
32	F. Access and Evidence	BLOCKER	A	Estimated number of interviewees — central BI team and business unit users	4a · 6, 7.2		Not answered		S7
33	F. Access and Evidence	BLOCKER	A	**Can a metric dictionary, report standard, access policy or similar document be shared**	4a · 3.2 (P1 evidence collection), 5.2		Not answered		S7
34	F. Access and Evidence	Assumption	A	Can the BI platform team show the admin console, report inventory and refresh history on screen — no system access is requested	4a · 3.2 (P1), 5.2, 7.2		Not answered		In P0
35	F. Access and Evidence	Assumption	A	**Can business unit users be interviewed**	4a · 2.3 (Self-Service & Adoption), 7.2		Not answered		In P0
36	F. Access and Evidence	BLOCKER	B	Which access model — Mode A (guided: Komtaş is not given system access; the customer team takes the agreed usage log and admin console exports and shares the output) or Mode B (read-only access to the admin console, usage log and licence records); the final decision is made in P0	4b · «MOD A» / «MOD B» paragraphs, 5.2, 5.3, 6		Not answered		S9
37	F. Access and Evidence	BLOCKER	B	**Mode B: how does the access approval process work, how long does it take · Mode A: who will take the exports, how quickly can the outputs be shared**	4b · 2.4 (driver 11), 5.2, 6		Not answered	Cannot be offset by adding people	S9
38	F. Access and Evidence	BLOCKER	B	Is the usage log enabled; how many days is it retained	4b · 2.4 (driver 10), 5.2 — constraint		Not answered	Below 30 days or a disabled log is a constraint, not an assumption; a dimension that cannot be measured is reported as "evidence could not be produced"	S10
39	F. Access and Evidence	Assumption	B	**Can an admin console and report inventory export be taken**	4b · 2.3 (B2), 3.2 (P1 evidence collection)		Not answered		In P0
40	F. Access and Evidence	Assumption	B	Can refresh history and error logs be accessed (in Mode A: can they be shared as an export)	4b · 2.3 (B4), 5.2		Not answered		In P0
41	F. Access and Evidence	Assumption	B	**Can licence and capacity reports be shared**	4b · 2.3 (B10), 5.2		Not answered		In P0
42	F. Access and Evidence	Assumption	B	Can model files and metric definitions be reviewed	4b · 2.3 (B1, B3)		Not answered		In P0
43	F. Access and Evidence	Assumption	B	**Can one report be selected for end-to-end tracing**	4b · 3.2 (P1, observation evidence)		Not answered		In P0
44	F. Access and Evidence	Assumption	B	Is access to data content needed, or is metadata sufficient	4b · 5.2		Not answered		Stated in proposal
45	G. Metric Definition and Semantic Layer	BLOCKER	B	**Is there a central metric dictionary or definition catalogue**	4b · 2.3 (B1)		Not answered	Blocker in 3b; not in B's proposal set because it does not change the effort, verified in P0. In A it is covered by the document question in S7	In P0
46	G. Metric Definition and Semantic Layer	Assumption	B	Have owners been set for metric definitions — who can change them	4b · 2.3 (B1)		Not answered		In P0
47	G. Metric Definition and Semantic Layer	Assumption	B	**Is there a known case of the same metric showing different values in different reports**	4b · 3.2 (P1 focus, recurring pattern check)		Not answered		In P0
48	G. Metric Definition and Semantic Layer	Assumption	B	Is calculation logic inside the report or in a central layer	4b · 2.3 (B1, B3)		Not answered		In P0
49	G. Metric Definition and Semantic Layer	Assumption	B	**Is there a process for reconciling the numbers**	4b · 2.3 (B7)		Not answered		In P0
50	H. Users and Adoption	BLOCKER	B	Number of user representatives to interview and their distribution across units	4b · 2.4 (driver 9), 6, 7.2		Not answered	Main driver of the schedule; if it falls in the large band, the schedule extends	S12
51	H. Users and Adoption	Assumption	B	**How many users can build their own reports**	4b · 2.3 (B5)		Not answered		In P0
52	H. Users and Adoption	Assumption	B	How is a new report request raised; what is the average fulfilment time	4b · 2.3 (B5)		Not answered		In P0
53	H. Users and Adoption	Assumption	B	**Is there a training programme; how many people have taken it**	4b · 2.3 (B5)		Not answered		In P0
54	H. Users and Adoption	Assumption	B	Is there information on users' habit of exporting to Excel	4b · 2.3 (B9), 3.2 (recurring pattern check)		Not answered		In P0
55	H. Users and Adoption	Assumption	B	**Have reports been deleted or retired; who decides**	4b · 2.3 (B8)		Not answered		In P0
56	I. Target Level and Expectations	Assumption	B	Can a target level (1–5) be set for each of the twelve dimensions; who will set it	4b · 2.3, 5.3; P0 deliverable		Not answered	The per-dimension answer is written in the table in section I of 3b	In P0
57	I. Target Level and Expectations	Assumption	B	**Expected target-state direction — keep and tidy up, build a semantic layer, consolidate tools, hand over to the feeding layer; is BI migration under consideration**	4b · 1, 2.1, 3.3		Not answered	The migration itself is a separate service: BI Migration (KARE URT-2026-001; QlikView→Power BI accelerator GEN-2026-001). In customer files it appears as "BI migration (separate proposal)"	S13
58	I. Target Level and Expectations	Assumption	B	Is there a mandatory standard, regulation or audit expectation	4b · 2.3 (B6), 5.1		Not answered		In P0

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
59	I. Target Level and Expectations	Assumption	B	**Who will the report be presented to — the BI team or management**	4b · 1, 4		Not answered		In P0
60	J. Organisation and Roles	BLOCKER	A · B	Can a BI platform owner with access to the admin console and usage log be assigned; can the BI / report team allocate time to the work	4a/4b · 7.2, 5.3		Not answered		S4
61	J. Organisation and Roles	Assumption	A · B	**Who is the project sponsor**	4a/4b · 7.3		Not answered		In P0
62	J. Organisation and Roles	Assumption	A · B	Will the report development team take part in interviews; is it central or distributed	4a/4b · 7.2; 4b · 2.3 (B5)		Not answered		In P0
63	J. Organisation and Roles	Assumption	B	**Can the feeding data platform team be interviewed**	4b · 7.2, 2.3 (B4)		Not answered		In P0
64	J. Organisation and Roles	Assumption	B	Will security and compliance be involved in the process	4b · 7.2, 2.3 (B6), access approvals		Not answered		In P0
65	K. Commercial Framework	Assumption	A · B	**Is there an approved budget**	4a/4b · 8.1		Not answered		Sales knows
66	K. Commercial Framework	Assumption	A · B	Schedule constraint — licence renewal, budget period, management presentation	4a/4b · 6		Not answered		Sales knows
67	K. Commercial Framework	Assumption	A · B	**Procurement process and approval steps**	4a/4b · 9.1		Not answered		S1
68	K. Commercial Framework	Assumption	A · B	Will the work be carried out remotely, on site or hybrid	4a/4b · 5.4		Not answered		In P0

MINIMUM QUESTION SET FOR THE PROPOSAL — 14 QUESTIONS

When these fourteen questions are answered, selected by the SERVICE column, the proposal can be written: seven questions for A, twelve for B. Twenty-six of the sixty-eight questions in the list are combined here; the remaining forty-two stay in P0, on the sales side, or in the proposal as an assumption or statement.

#	BLOCK	SERVICE	QUESTION	WHY IT IS NEEDED	IF NO ANSWER	ANSWER	STATUS	QUESTIONS COVERED
S1	COMMON · DETAILS	A · B	**Which legal entities are in scope; is there an RFP or specification; how does the procurement process work?**	The cover, 1. Executive Summary and the 9.1 conditions are written from this. If there is an RFP, the proposal is structured accordingly.	**Proposal cannot be written**		Not answered	1, 4, 67
S2	COMMON · DECISION	A · B	**Which decision or problem will the engagement support (semantic layer investment, tool consolidation, licence renewal, budget justification); who will make the decision, and when? Is the expected result a red / amber / green status per heading (A), or current and target level per dimension with a target-state decision and roadmap (B)?**	Service selection depends on this answer. 1. Executive Summary and 2.1 Objective are written from it; the decision date determines the schedule and proposal validity.	**Service cannot be selected**		Not answered	6, 7, 8
S3	COMMON · TOOLS	A · B	**Which BI tool(s) and versions are in scope; how many BI tools are in use, and are all of them in scope?**	The «TECHNOLOGY» row and the tool-count driver in 2.4 Scope Size are written from this. The number of tools directly determines the interview and evidence-collection load.	Band cannot be selected		Not answered	13, 20
S4	COMMON · ORGANISATION	A · B	**Can a BI platform owner with access to the admin console and usage log be named; can the BI / report team allocate time to the work?**	7.2 Expected participation and the 5.3 assumptions. If no platform owner is assigned, P1 takes longer and most of the evidence falls back to statements.	Schedule cannot be given		Not answered	60
S5	COMMON · SCALE	A · B	**What are the approximate number of reports and dashboards and the number of active users?**	The two dominant band drivers in both services (2.4, drivers 1 and 2).	Band cannot be selected		Not answered	26, 27
S6	A · SCOPE	A	**Are all six headings in scope; is any heading to be excluded?**	The 4a 2.3 Assessment Headings and the «OUT-OF-SCOPE HEADING» markers are filled in from this. If a level per dimension or usage measurement is required, the right service is B.	Scope section cannot be written		Not answered	14
S7	A · EVIDENCE	A	**How many people will be interviewed; can a metric dictionary, report standard or similar document be shared?**	A's evidence is documents, interviews and on-screen walkthroughs; no system access is given. The number of interviews and the availability of documents directly determine the schedule.	Schedule cannot be given		Not answered	32, 33
S8	B · SCOPE	B	**Are all twelve dimensions in scope; is any dimension to be excluded? How many business units are in scope?**	The 4b 2.3 Assessment Dimensions, the «OUT-OF-SCOPE DIMENSION» markers and the business-unit driver in 2.4 are filled in from this.	Scope section cannot be written		Not answered	15, 16
S9	B · ACCESS	B	**Will the work be run in Mode A (guided — no system access; the customer team takes the usage log and admin console exports) or Mode B (read-only access to the admin console, usage log and licence records)? If Mode B, how long does access approval take; if Mode A, who takes the exports and how quickly are the outputs shared?**	Determines which of the «MOD A» / «MOD B» paragraphs is kept, the 5.2 assumptions and the schedule. Approval time (Mode B) or output delivery time (Mode A) cannot be offset by adding people.	Schedule cannot be given		Not answered	36, 37
S10	B · LOG	B	**Is the usage log enabled; how many days is it retained?**	The usage log is B's decisive evidence source. If retention is below thirty days, the measurement window narrows; if the log is disabled, the dimensions measured from it (mainly B2, B9, B10) are reported as "evidence could not be produced", not estimated. This is written as a constraint, not an assumption.	Scope reduction is stated in the proposal		Not answered	38
S11	B · MODEL	B	**How many semantic models or datasets are there; how many data platforms feed BI (DWH, lakehouse, direct source)?**	Two band drivers in 2.4 (drivers 4 and 6). The feeding layer is assessed only through its interface to BI (2.5).	**Band cannot be selected**		Not answered	22, 28
S12	B · CRITICAL REPORTS	B	**Can the most critical reports and metrics be named; how many user representatives will be interviewed, and how are they distributed across units?**	The P1 focus list is built from the critical reports. The adoption and self-service dimensions cannot be measured without interviewing business unit users; the number of representatives is the main schedule driver (driver 9).	Schedule cannot be given		Not answered	31, 50
S13	B · TARGET	B	**What is the expected target-state direction — keep and tidy up, build a semantic layer, consolidate tools, hand over to the feeding layer; is BI migration under consideration?**	The emphasis of 2.1 Objective and 3.3 Target-State Decision Framework is written from this; the decision among the four options is made by criteria and findings. The migration itself is a separate service (BI Migration — KARE URT-2026-001; GEN-2026-001 for QlikView→Power BI); in the proposal it appears as "BI migration (separate proposal)".	**3.3 emphasis written as an assumption**		Not answered	57
S14	B · ENVIRONMENT	B	**How many environments are there (dev, test, prod); are there embedded or portal integrations, and how many?**	Two band drivers in 2.4 (drivers 7 and 8). Embedded use determines the scope of dimension B11.	**Band cannot be selected**		Not answered	24, 25

NOTE

S9 and S10 are not an access list. Items such as refresh history, licence and capacity reports and model files are opened in one go in P0; S9 is asked at proposal stage because it changes the schedule, and S10 because it changes the scope. In A, the number of business units, semantic models, feeding platforms and environments are band drivers but are not in the minimum set; if unanswered, they are written into 4a 2.4 as a statement or assumption. S1–S5 are common to both services; if both services are proposed to the same customer, they are asked once.

42 QUESTIONS OUTSIDE THE PROPOSAL SET

They were not deleted; when they are asked has been clarified. Some are never asked — they are written in the proposal as an assumption or statement.

WHEN	COUNT	RATIONALE
In P0	32	Complaints and open issues, success criterion, out-of-scope tools and units, operational reporting, semantic layer product, report open volume, scheduled distributions, walkthrough, business unit interviews (A), admin console and inventory export, refresh history, licence and capacity reports, model files, choice of end-to-end tracing, metric dictionary (B), metric ownership, metrics showing different values, calculation logic, reconciliation, self-service, request process, training, export to Excel, report retirement, target level per dimension, standards and audit expectations, report recipient, sponsor, report development team, feeding platform team, security and compliance participation, work location. Asked when the export list is opened and the interview plan is made.
Sales knows	7	Proposal recipient, proposal date, competitor situation, licence renewal date, reuse of previous assessment and evidence inventory, budget, schedule constraint. The commercial framework is the responsibility of sales; it is taken from the CRM or the sales representative.
Assumption in proposal	2	Deployment model and the scope of non-production environments. These are not band drivers; if unanswered, they are written into 2.4 or 5.1 as a statement or assumption and verified in P0. The dominant band drivers (report and user count, tool count; in B also the model, platform, environment, log, approval and representative drivers) are in the minimum set.
Stated in proposal	1	Access to data content. This is to be stated, not asked: 4b 5.2 states that the assessment is carried out on metadata, the usage log and exports.
Total	42	26 of the 68 questions were merged into the 14 questions of the Proposal Set; the remaining 42 were distributed across the four buckets above.

PROPOSAL READINESS STATUS

This sheet is calculated automatically. The decision on whether a proposal can be written is made separately for each service, based on the relevant questions on the Proposal Set sheet (SERVICE column).

MEASURE	A · HEALTH CHECK	B · MODERNIZATION	DESCRIPTION
Number of proposal set questions	7	12	Common questions (S1–S5) and service-specific questions (A: S6–S7, B: S8–S14)
Answered	0	0	STATUS column on the Proposal Set sheet
Partially answered	0	0	Written as an assumption in the proposal
Missing	7	12	Unanswered proposal question
Completion	0%	0%	Answered / total
CAN THE PROPOSAL BE WRITTEN	**NO — 7 questions missing**	**NO — 12 questions missing**	YES if missing is zero
Service questions (Questions)	37	63	Questions carrying the relevant letter in the SERVICE column of the full list
Service questions — deferred to P0	9	30	Asked in the first week of the work
Questions in the whole form	68		Reference: full list of 68 questions (3a, 3b deduplicated)
Deferred to P0 (all)	32		Asked in the first week of the work

Rule: a service's proposal is not written until that service's proposal set is complete. If it must be written, each missing item is written into section 5 of the proposal as an assumption and it is stated that the scope will be reassessed if that assumption does not hold.

STATUS BY SECTION

SECTION	QUESTION	BLOCKER	ANSWERED	MISSING BLOCKER
A. Organisation and Proposal Details	5	2	0	2
B. Decision and Problem Definition	7	2	0	2
C. Scope	7	4	0	4
D. Tools and Environment	6	1	0	1
E. Scale and Inventory	6	2	0	2
F. Access and Evidence	13	5	0	5
G. Metric Definition and Semantic Layer	5	1	0	1
H. Users and Adoption	6	1	0	1
I. Target Level and Expectations	4	0	0	0
J. Organisation and Roles	5	1	0	1
K. Commercial Framework	4	0	0	0
Total	**68**	**19**	**0**	**19**

TO BE SENT TO THE SAT OFFICE AFTER THE MEETING

Once these items arrive, the proposal text can be produced.

#	ITEM	SENT	NOTE
1	This completed form (with the answers from the customer form entered)	No	
2	Your meeting notes — raw is fine, do not try to tidy them	No	
3	RFP / specification file, if any	No	
4	Report inventory, metric dictionary, report standard or organisation chart shared by the customer	No	
5	Service decision: A, B or both; if B, the access model (Mode A guided / Mode B read-only) and the usage log retention	No	
6	Pricing decision: which band (S / M / L); if A was done before, the evidence inventory reused in B	No	
7	Team decision: which consultants will be assigned (for table 7.1)	No	

HOW TO USE

TWO-FILE SET-UP

Sent to the customer	bi-assessment-5-musteri-soru-seti-en.xlsx — twenty questions and an information note. The SERVICE column states which service each question is required for. Assessment headings, dimensions, target levels and methodology are not asked of the customer; Komtaş proposes them based on the answers.
This file (internal)	bi-assessment-6-ic-soru-seti-en.xlsx — full list of 68 questions, the 14-question minimum set required for the proposal (by service: A 7, B 12) and those deferred to P0. Answers from the customer form are entered in this file and the proposal is written from here.
Minimum set logic	Twenty-six of the sixty-eight questions have been merged into fourteen questions. S1–S5 are common to both services; S6–S7 belong only to A and S8–S14 only to B. Because the remaining forty-two questions do not change the proposal, they have been left to the first week of the work (P0), to sales, or written in the proposal as an assumption or statement. Criterion: if doubling the number in the answer does not double the work, that question is not a proposal question.

SERVICE column	A · BI Health Check, B · BI Modernization Assessment. “A · B” marks a question asked in both services, “A” one asked only in the Health Check and “B” one asked only in the Modernization Assessment. Once the service to be proposed is known, only the questions carrying that letter are needed.
Fields to fill in	On the Questions sheet, only the ANSWER (G), STATUS (H) and NOTE (I) columns are filled in; on the Proposal Set sheet, ANSWER (G) and STATUS (H). Yellow cells show the fields to fill in. Pre-written short explanations in the NOTE column may be added to without deleting them.
Other sheets	Figures on the Summary, Section Breakdown and Remaining sheets are calculated automatically; do not change them by hand.
PRIORITY — BLOCKER	The proposal is not written until this question is answered; it cannot be filled with an assumption. The row stays red. For questions that are a blocker in one service and an assumption in another, the distinction is noted in the NOTE column.
PRIORITY — Assumption	If left unanswered, it is written into section 5 of the proposal as an assumption.
STATUS — Answered	A clear answer was received. The row turns green.
STATUS — Partial	An answer was received but it is incomplete or unclear. Written as an assumption in the proposal.
STATUS — Not answered	Not yet asked, or no answer received.

“We don’t know” as an answer	This is also an answer and is often the first finding. STATUS is marked “Partial” and it is written in the NOTE field.
Writing the proposal	When the “CAN THE PROPOSAL BE WRITTEN” row for a service on the Summary sheet is YES, filling in that service's proposal template begins: for A bi-assessment-4a-health-check-teklif-sablonu-en.docx, for B bi-assessment-4b-modernization-teklif-sablonu-en.docx.
WHERE IT FILLS IN THE PROPOSAL	Format is “4b · 2.4”: template (4a, 4b) and section number. “4a/4b · 7.2” refers to the same section in both templates. 2.3 is Assessment Headings in 4a and Assessment Dimensions in 4b; “driver N” is the row number of the band table in 3a and 3b.
Source	The questions were produced by deduplicating the files bi-assessment-3a-health-check-girdi-formu-en.docx (sections A–G) and bi-assessment-3b-modernization-girdi-formu-en.docx (sections A–K); the SECTION column follows the sections of 3b. The target level for B’s twelve dimensions is collected in a single row; the per-dimension answer is written in the table in 3b. Tool migration is not within the scope of this package (BI Migration — KARE URT-2026-001; GEN-2026-001 for QlikView→Power BI). When a question’s text changes, both Excel files are updated.

EXAMPLE ROW

QUESTION	ANSWER / STATUS / NOTE
