DATA GOVERNANCE PROGRAM · SERVICE A

Strategy & Framework — Proposal Input Form

Information to be collected to price the product-independent data governance strategy and framework work (maturity assessment, organisation and role model, policies and processes, glossary and DQ templates, pilot, roadmap). Sections follow the Proposal Set codes (S1–S8); once the form is completed and returned, the proposal text (file 4a) is produced.

Rows marked ● are BLOCKERS — the proposal cannot be written without them and they cannot be filled with assumptions.

If rows marked ○ remain missing, they are written into the proposal as assumptions and go to the General Assumptions section.

The "WHERE IT GOES IN THE PROPOSAL" column of each row names the variable field and section of the proposal template. Scope limits are written into the proposal as «N»; sources, tables, reports, terms and rules beyond the limit are out of scope.

LIMIT OF SERVICE A: product-independent — maturity assessment (ten categories), awareness sessions, strategy, framework and organisation model, policies, processes and RACI, glossary and DQ templates, a pilot in one domain and a roadmap. Platform installation, system-level technical metadata extraction and automated cataloguing, and implementation in other domains are outside the scope of A (Service B).

Evidence model: structured stakeholder interviews, workshops, document review and technical inventory analysis (4a 3.5). The pilot runs on Informatica; access, user accounts and sample data are provided by the customer (4a 4.6).

Three optional blocks can be sold: technology selection support (RFI / RFP, POC), process and data flow analysis, DQ assessment on a sample dataset. If the framework exists and the technology is to be installed, the right service is B (form 3b).

S1 · COMMON · DETAILS — Organisation and Proposal Details

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**Full legal name of the organisation and the short name used in the text; single company or group with subsidiaries**	Cover «CUSTOMER NAME», text «CUSTOMER», 1. «CUSTOMER CONTEXT»	
○	Legal entities and group companies in scope — names; for a single company the row is deleted	Cover «GROUP COMPANIES», 4.3 and 10. «OPTIONAL» rows, Driver 3	
○	Sector, starting point and reason for the request — for the one-paragraph context	1. «CUSTOMER CONTEXT»	
●	**Is there an RFP, specification or requirements list; its number, response format and deadline**	Structure of the proposal, 11.3 «OPTIONAL» ANNEX-3	
○	Proposal addressee — name, title, unit; proposal date and expected decision date	Cover «dd Month yyyy», 11.1 «proposal date + 1 month»	
○	Procurement process, approved budget and expected invoice payment term	8. Fees, 11.1 «N» days payment term, «price validity date»	
○	Location for on-site work (city)	9. General Assumptions and 11.1 «CITY»	
○	Are there competitors, and who	Emphasis and section weights	

S2 · COMMON · DECISION — Trigger, Tier and Existing Work

The value of Service A lies in the decision it supports: technology investment, rollout to other domains or an organisational decision. If the decision cannot be written, the last paragraph of section 1 stays empty and the work reads as report writing.

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**What triggers the work and which decision will it support — technology investment, rollout to other domains, KVKK or audit finding, AI initiatives**	1. «DECISION», «CUSTOMER CONTEXT»	
●	**Which tier(s) are wanted — A Strategy & Framework / B Technology Enablement / C Managed Service; together or in sequence**	Template choice (4a / 4b / 4c), Table 1 status column, Service Selection Check	

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
○	Which data governance work exists today — policies, roles, glossary, catalogue, DQ — and on which platform	3.4 current level, 7.4 missing documentation risk	
○	Is there a target date — budget period, go-live, audit schedule	Table 1, 6. Project Plan	
○	Are there AI or advanced analytics initiatives	1. Key Benefits «OPTIONAL» item	

S3 · COMMON · SPONSOR — Sponsor, Data Governance Office and Coordination

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**Project sponsor — name, title**	7.2 Expected participation, 7.3 steering committee	
●	**Can a project coordinator be appointed — day-to-day contact**	9. General Assumptions, 7.2	
○	Is there a Data Governance Office or data governance committee; who leads it	4.3 organisation model, 3.4 category 1	
○	Have data owners and data stewards been appointed; who approves definitions	4.3, 4.6 pilot ownership definitions, 7.2	
○	Are IT / data architecture and information security and compliance representatives known	7.2 Expected participation	

S4 · COMMON · SCOPE — Pilot / Priority Domain, Units and Companies

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**Which is the pilot or priority data domain — e.g. customer, product, finance**	«PILOT DOMAIN» 4.1, 4.6, 4.9, Table 7	
○	Business units in scope — names	«UNITS TO INTERVIEW» 4.1 (detail S6)	
○	Number of group companies / legal entities in scope	Driver 3, 4.3 «OPTIONAL», 7.4 «OPTIONAL» risk	
○	Are any domains, units or companies to be excluded	10. Out of Scope	

S5 · COMMON · PLATFORM — Platform and Licence

> A is product-independent; the platform question decides where the pilot runs and whether the technology selection option is needed. Licence prices are never written into the proposal of any tier.

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**Is Informatica installed or planned; IDMC (cloud) or on-premises (Axon / EDC / IDQ)**	4.6 pilot platform and FILL NOTE, 4.8 choice	
●	**Licence status — existing, to be purchased or a separate licence proposal; number and date of the licence proposal**	«LICENCE PROPOSAL REF», 8. Fees	
○	Is another data governance, catalogue or DQ tool in use or under evaluation	4.8 «OPTIONAL — TECHNOLOGY SELECTION», 4.6 FILL NOTE	

S6 · A · INTERVIEWS — Interviews and Documents

> The number of units is the first band driver of A. The proposal states at most «N» units; even if the units in scope change, the total number of interviews does not exceed this limit (4a 9).

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**Business units to interview — names and number (table)**	«UNITS TO INTERVIEW», 4.1 at most «N» units, 9. «N» units, Driver 1	
●	**Documents that can be shared — policies and procedures, organisation chart, system inventory, existing glossary or catalogue outputs**	3.5, 4.1 document review, 9. assumption, 7.4 risk	
○	Will information security, internal audit and the KVKK officer join the interviews	3.5, 4.1, 7.2	
○	Awareness sessions — participant group for the executive session and the general session	4.2, Table 7 «N» working days	
○	Who will organise the interviews; can the schedule be fixed in week 1	9. assumption, 7.4 risk	

Units to interview — the first row is an example; rows are added as needed.

#	UNIT	INTERVIEWEE	ROLE	REMOTE / ON-SITE	NOTE
–	Example: Finance	Full name	Data owner	On-site	
1					
2					
3					
4					
5					
6					
7					
8					

S7 · A · OPTIONS — Optional Blocks

> A block that is not sold is deleted from the proposal together with its rows in Tables 6, 7, 11 and 12; for a block that is kept, only the marker is deleted. The number of optional blocks is a band driver.

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**Which optional blocks go into the proposal — none / technology selection / process and data flow analysis / DQ assessment**	4.8–4.10, Tables 6, 7, 11, 12, Drivers 4–5	
○	Technology selection: are a requirements and criteria set, an RFI / RFP draft, POC scenarios and vendor evaluation wanted; candidate products	«OPTIONAL — TECHNOLOGY SELECTION» 4.8, Table 6 rows 7–8, 7.4 risk	
○	Process and data flow analysis: flow of domain data from source to report, manual steps, Excel and personal tracking sheets	«OPTIONAL — PROCESS AND DATA FLOW ANALYSIS» 4.9, Table 6 row 9	
○	DQ assessment: number of records in the sample customer dataset; can the data leave for the Komtaş environment, or is a customer environment with tools used	«OPTIONAL — DATA QUALITY ASSESSMENT» 4.10 «N» records, 9. assumptions	
○	Is a time and materials model preferred over a fixed fee	8.1 «OPTIONAL», Table 13 «day rate»	

S8 · A · PILOT — Pilot

> The pilot defines and shows business terms, ownership and sample DQ rules on the platform for the «PILOT DOMAIN» domain. Permanent operation of the platform, continuous data feeds and production operation are out of scope (4a 4.6).

	TO ASK	WHERE IT FILLS IN THE PROPOSAL	ANSWER
●	**Name of the pilot domain and the sample dataset for the pilot**	«PILOT DOMAIN» 4.6, Table 7 pilot row	
●	**Platform access for the pilot — who provides the Informatica environment, user accounts, permissions, source and network access**	4.6, 9. assumption	
○	Will pilot business terms and ownership be prepared in workshops; how many workshops	4.6 «OPTIONAL» «N» workshops	
○	Will the pilot run on a platform other than Informatica	4.6 FILL NOTE, 9. product name	
○	Is a second pilot domain wanted	Driver 2, 4.6	

Fields Filled by the Proposal Team

These fields are not asked of the customer; SAT and sales fill them from the band, the payment pattern and approved lists.

#	FIELD	WHERE IN THE PROPOSAL	HOW IT IS SET	VALUE
1	«CUSTOMER ABBREVIATION» · «YEAR» · «SEQUENCE»	Cover — proposal number	Proposal register sequence	
2	«dd Month yyyy» · «proposal date + 1 month»	Cover, 11.1	Send date + 1 month (S1)	
3	«price validity date»	11.1	Start within the calendar year (FILL NOTE)	
4	«fee» · «amount» · «%»	8. Tables 11, 12	Band + options; payment 10 / 30 / 30 / 30%	
5	«day rate»	Table 11, 8.1 Table 13	Role-based day rate list	
6	«N» weeks · working days · delivery week · effort	Table 1, 5. Table 6, 6. Tables 7, 8	Band worksheet, delivery confirmation	
7	«N» working days to start · «N» working days review · «N» days payment term	9. General Assumptions, 11.1	Standard value; per the S1 answer	
8	«REFERENCES»	ANNEX-1 References	Only references approved for this proposal	
9	«full name» · «title» · «e-mail / phone»	11.2 contacts	Komtaş commercial and technical contact	

Band Estimate — Service A

Completed after the answers are collected. The band is the highest band reached by at least three drivers; a single large driver does not carry the band.

Bands are calibrated on proposal plans; to be updated with actual effort. Komtaş effort is not written into the proposal before delivery confirms it.

#	DRIVER	SMALL	MEDIUM	LARGE	RESULTING BAND
1	Units to interview (S6)	≤ 6	7 – 10	> 10	
2	Pilot domains (S8)	1	1	2+	
3	Legal entities / group companies (S1, S4)	1	2 – 3	> 3	
4	Technology selection support (S7)	No	Yes	Yes	
5	Extra analysis modules — process and data flow, DQ assessment (S7)	None	1	2+	
	RESULT — selected band	30 wd · 40–50 pd	40–45 wd · 80–90 pd	60 wd · 110–120 pd	

CALIBRATION — S 30 wd (6 weeks), 40–50 pd: Aras (30 wd; July strategy proposal 39 pd + 10 pd optional DQ assessment) · M 40–45 wd (8–9 weeks), 80–90 pd: Havelsan 40 wd / 84 pd, OYAK 45 wd (incl. RFP / POC) · L 60 wd (12 weeks), 110–120 pd: Memorial 60 wd / 116 pd.

WORK PACKAGES — current-state analysis (unit interviews, awareness workshop, analysis report) · framework (organisation, roles, processes, policy) · pilot (parallel to the framework) · roadmap and executive presentation · project management (4a Table 7).

TEAM — Project Manager (10–20%) · DG Partner / Senior Consultant (20%, strategy) · DG Team Leader · DG Consultant / Specialist · DQ Specialist (only if the DQ assessment is sold).

PAYMENT — 10% kick-off · 30% organisation model and roles · 30% policies and procedures · 30% pilot and roadmap (4a Table 12). Optional blocks follow the same milestones; the DQ assessment is paid on delivery of its report.

Service Selection Check

Before filling in the form, make sure that A is the right service. One request can match more than one row; tiers can be proposed together.

STATUS	RIGHT SERVICE
There is no data governance framework (organisation, roles, policies, glossary templates); a maturity assessment and a roadmap are wanted	A — Strategy & Framework
No technology has been selected yet; the product is to be selected on criteria derived from the needs	A + technology selection option
The framework exists (A or equivalent); business glossary, catalogue and lineage, data quality are to be set up on Informatica	B — modules B1 / B2 / B3
On-premises Axon / EDC / IDQ is installed; migration to IDMC is wanted	B — Migration variant
The platform is installed and piloted in one domain; rollout to new domains is wanted	B — Rollout variant
The platform is live; demand-based DQ / DG work and P1 / P2 / P3 support are wanted	C — Managed Service
The request is governance applied in operational systems when data is created — DQ checks at entry, SDLC gate	Operational Data Governance Enablement
The request is AI model and use-case risk, AI policies and an AI inventory	AI Governance Readiness
The request is the design and delivery of domain-based data products	Data Product Delivery
Only an Informatica licence is wanted; no consulting service	Licence proposal only — this package is not used

Blocker Checklist

These rows must be answered before proposal writing starts.

SECTION	BLOCKER QUESTION	ANSWERED?
S1	Full legal name of the organisation and the short name used in the text; single company or group with subsidiaries	
S1	Is there an RFP, specification or requirements list; its number, response format and deadline	
S2	What triggers the work and which decision will it support — technology investment, rollout to other domains, KVKK or audit finding, AI initiatives	
S2	Which tier(s) are wanted — A Strategy & Framework / B Technology Enablement / C Managed Service; together or in sequence	
S3	Project sponsor — name, title	
S3	Can a project coordinator be appointed — day-to-day contact	
S4	Which is the pilot or priority data domain — e.g. customer, product, finance	
S5	Is Informatica installed or planned; IDMC (cloud) or on-premises (Axon / EDC / IDQ)	
S5	Licence status — existing, to be purchased or a separate licence proposal; number and date of the licence proposal	
S6	Business units to interview — names and number (table)	
S6	Documents that can be shared — policies and procedures, organisation chart, system inventory, existing glossary or catalogue outputs	
S7	Which optional blocks go into the proposal — none / technology selection / process and data flow analysis / DQ assessment	
S8	Name of the pilot domain and the sample dataset for the pilot	
S8	Platform access for the pilot — who provides the Informatica environment, user accounts, permissions, source and network access	

IF ANY BLOCKER IS MISSING — the proposal is not written. If it must be written, each missing item is written into the General Assumptions section of the proposal as an assumption, and it is stated that the scope will be reassessed if that assumption does not hold.

The second row of S2 has a special place: if the customer expects the technology to be installed rather than the framework, the right form is 3b; A is then proposed together with B.
