DATA GOVERNANCE PROGRAM — INTERNAL QUESTION SET

Komtaş internal working file. Not sent to the customer. The deduplicated questions from the 3a, 3b and 3c input forms (88 questions) are here; the SERVICE column shows which service the question is asked in. The minimum set needed for the proposal is on the Proposal Set sheet.

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
1	A. Organisation and Proposal Details (S1)	BLOCKER	A · B · C	**Full legal name of the organisation and the short name used in the text; single company or group with subsidiaries**	4a/4b/4c · Cover «CUSTOMER NAME», text «CUSTOMER», 1. «CUSTOMER CONTEXT»		Not answered		S1
2	A. Organisation and Proposal Details (S1)	Assumption	A · B · C	Legal entities and group companies in scope — names; for a single company the row is deleted	4a · Cover «GROUP COMPANIES», 4.3 and 10. «OPTIONAL» rows, Driver 3; 4b · Cover «GROUP COMPANIES»; 4c · Cover «GROUP COMPANIES»		Not answered	For a single company the «GROUP COMPANIES» row is deleted	S1
3	A. Organisation and Proposal Details (S1)	Assumption	A · B · C	Sector, starting point and reason for the request — for the one-paragraph context	4a/4b/4c · 1. «CUSTOMER CONTEXT»		Not answered		Sales knows
4	A. Organisation and Proposal Details (S1)	BLOCKER	A · B · C	**Is there an RFP, specification or requirements list; its number, response format and deadline**	4a · Structure of the proposal, 11.3 «OPTIONAL» ANNEX-3; 4b · Structure of the whole proposal; 4c · Structure of the whole proposal		Not answered		S1
5	A. Organisation and Proposal Details (S1)	Assumption	A · B · C	Proposal addressee — name, title, unit; proposal date and expected decision date	4a · Cover «dd Month yyyy», 11.1 «proposal date + 1 month»; 4b · Cover «dd Month yyyy», 16.1 «proposal date + 1 month»; 4c · Cover «dd Month yyyy», 12.1 «proposal date + 1 month»		Not answered		Sales knows
6	A. Organisation and Proposal Details (S1)	Assumption	A · B · C	Procurement process, approved budget and expected invoice payment term	4a · 8. Fees, 11.1 «N» days payment term, «price validity date»; 4b · 12. Fees, 16.1 «N» days payment term, «price validity date»; 4c · 9. Fees, 12.1 «N» days payment term, «price validity date»		Not answered		S1
7	A. Organisation and Proposal Details (S1)	Assumption	A · B · C	Location for on-site work (city)	4a · 9. General Assumptions and 11.1 «CITY»; 4b · 14. General Assumptions and 16.1 «CITY»; 4c · 10. General Assumptions and 12.1 «CITY»		Not answered		Assumption in proposa
8	A. Organisation and Proposal Details (S1)	Assumption	A · B · C	Are there competitors, and who	4a/4b/4c · Emphasis and section weights		Not answered		Sales knows
9	B. Trigger, Tier and Existing Work (S2)	BLOCKER	A · B · C	**What triggers the work and which decision will it support — technology investment, rollout to other domains, KVKK or audit finding, AI initiatives**	4a · 1. «DECISION», «CUSTOMER CONTEXT»; 4b · 1. «CUSTOMER CONTEXT»; 4c · 1. «CUSTOMER CONTEXT»		Not answered		S2
10	B. Trigger, Tier and Existing Work (S2)	BLOCKER	A · B · C	**Which tier(s) are wanted — A Strategy & Framework / B Technology Enablement / C Managed Service; together or in sequence**	4a/4b/4c · Template choice (4a / 4b / 4c), Table 1 status column, Service Selection Check		Not answered	See the Service Selection Check in 3a/3b/3c	S2
11	B. Trigger, Tier and Existing Work (S2)	BLOCKER	A · B · C	**Which data governance work exists today — policies, roles, glossary, catalogue, DQ — and on which platform**	4a · 3.4 current level, 7.4 missing documentation risk; 4b · 14. General Assumptions framework assumption, 2.1, Rollout choice; 4c · 4.1 Service Scope, 7. Service Plan (handover from Service B)		Not answered	Blocker for B/C; assumption for A	S2
12	B. Trigger, Tier and Existing Work (S2)	Assumption	A · B · C	Is there a target date — budget period, go-live, audit schedule	4a · Table 1, 6. Project Plan; 4b · Table 1, module plans; 4c · Table 1, 7. Service Plan		Not answered		S2
13	B. Trigger, Tier and Existing Work (S2)	Assumption	A · B · C	Are there AI or advanced analytics initiatives	4a · 1. Key Benefits «OPTIONAL» item; 4b · 2.3 «OPTIONAL» item; 4c · ANNEX-1 AI Governance Framework emphasis		Not answered		Sales knows
14	B. Trigger, Tier and Existing Work (S2)	BLOCKER	B	**Is there Service A or an equivalent framework (organisation, roles, glossary and DQ templates); if not, A is proposed together**	4b · 14. General Assumptions 4th item, whether the proposal is written		Not answered	Without a framework, A is proposed together	S2
15	B. Trigger, Tier and Existing Work (S2)	BLOCKER	C	**Is the platform live; when was or will it go live through Service B or another project**	4c · 4.4 hypercare, 7. Service Plan, whether the proposal is written		Not answered	If not live, C is not written; B or the support within B is proposed first	S2
16	C. Sponsor, DG Office and Coordination (S3)	BLOCKER	A · B · C	**Project sponsor — name, title · for C: service owner — name, title**	4a · 7.2 Expected participation, 7.3 steering committee; 4b · 11.2 Expected participation, 11.3 steering committee; 4c · 8.2 Expected participation, 8.3 steering committee		Not answered		S3
17	C. Sponsor, DG Office and Coordination (S3)	BLOCKER	A · B · C	**Can a project coordinator be appointed — day-to-day contact · for C: can a coordinator who submits and prioritises requests be appointed**	4a · 9. General Assumptions, 7.2; 4b · 14. General Assumptions, 11.2; 4c · 10. General Assumptions, 8.2		Not answered		S3
18	C. Sponsor, DG Office and Coordination (S3)	Assumption	A · B · C	Is there a Data Governance Office or data governance committee; who leads it	4a · 4.3 organisation model, 3.4 category 1; 4b · 8.1 Platform Workshop participants, 11.2; 4c · 8.3 Monthly steering meeting		Not answered		S3
19	C. Sponsor, DG Office and Coordination (S3)	Assumption	A · B · C	Have data owners and data stewards been appointed; who approves definitions	4a · 4.3, 4.6 pilot ownership definitions, 7.2; 4b · 5.1 responsibility for term definitions, 11.4 risk; 4c · Catalogue "Data steward onboarding", 8.2		Not answered		Settled in analysis
20	C. Sponsor, DG Office and Coordination (S3)	Assumption	A · B · C	Are IT / data architecture and information security and compliance representatives known	4a · 7.2 Expected participation; 4b · 11.2 Expected participation; 4c · 8.2 Expected participation		Not answered		At start of work
21	D. Domain, Units and Companies (S4)	BLOCKER	A · B · C	**Which is the pilot or priority data domain — e.g. customer, product, finance · for B: data domain in scope and the number of domains · for C: platform and domains the service will cover — which modules are live (glossary, catalogue and lineage, DQ)**	4a · «PILOT DOMAIN» 4.1, 4.6, 4.9, Table 7; 4b · «DOMAIN», 5.1 «N» data domains, Driver 4; 4c · 4.1 Service Scope, 1. «CUSTOMER CONTEXT»		Not answered	Band driver (A and B): domains 1 · 1 · 2+	S4
22	D. Domain, Units and Companies (S4)	Assumption	A · B · C	Business units in scope — names · for B: business units in scope — who will provide term definitions and DQ rules · for C: business units and group companies that will raise requests	4a · «UNITS TO INTERVIEW» 4.1 (detail S6); 4b · 5.1, 7.1, 11.2; 4c · Cover «GROUP COMPANIES», 8.2		Not answered		S4

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
23	D. Domain, Units and Companies (S4)	Assumption	A · B	Number of group companies / legal entities in scope · for B: number of group companies in scope	4a · Driver 3, 4.3 «OPTIONAL», 7.4 «OPTIONAL» risk; 4b · Cover «GROUP COMPANIES», 2.3		Not answered	Band driver for A: 1 · 2–3 · > 3	S4
24	D. Domain, Units and Companies (S4)	Assumption	A · B	Are any domains, units or companies to be excluded · for B: are any domains, systems or companies to be excluded	4a · 10. Out of Scope; 4b · 15. Out of Scope		Not answered		Stated in proposal
25	D. Domain, Units and Companies (S4)	Assumption	C	Size of the existing content — number of business terms, DQ rules and catalogued sources	4c · Monthly mix estimate, 7. Service start		Not answered		At start of work
26	D. Domain, Units and Companies (S4)	Assumption	C	Are new domains or sources expected (may be Service B rather than MSU)	4c · 11. Out of Scope, Service Selection Check		Not answered		Stated in proposal
27	E. Platform and Licence (S5)	BLOCKER	A · B · C	**Is Informatica installed or planned; IDMC (cloud) or on-premises (Axon / EDC / IDQ)**	4a · 4.6 pilot platform and FILL NOTE, 4.8 choice; 4b · «PLATFORM BLOCK — IDMC» / «PLATFORM BLOCK — ON-PREM», 4.1 / 4.2, 13.1 / 13.2; 4c · 4.1, 8.1 Support Engineer scope		Not answered		S5
28	E. Platform and Licence (S5)	BLOCKER	A · B · C	**Licence status — existing, to be purchased or a separate licence proposal; number and date of the licence proposal**	4a · «LICENCE PROPOSAL REF», 8. Fees; 4b · «LICENCE PROPOSAL REF», 12. Fees; 4c · «LICENCE PROPOSAL REF», 9. Fees		Not answered		S5
29	E. Platform and Licence (S5)	Assumption	A	Is another data governance, catalogue or DQ tool in use or under evaluation	4a · 4.8 «OPTIONAL — TECHNOLOGY SELECTION», 4.6 FILL NOTE		Not answered		S5
30	E. Platform and Licence (S5)	Assumption	B	Platform version; is migration from the installed on-premises stack to IDMC wanted	4b · «VARIANT BLOCK — MIGRATION» 9.1 (S9)		Not answered		S5
31	E. Platform and Licence (S5)	Assumption	B · C	Will the licences be in place before development starts · for C: are the licences valid for the whole service period	4b · 14. General Assumptions last item; 4c · 10. General Assumptions		Not answered		Assumption in proposa
32	E. Platform and Licence (S5)	Assumption	C	Are the licence subscription and maintenance provided through Komtaş	4c · 4.3 right to new releases and updates, «LICENCE PROPOSAL REF»		Not answered		S5
33	F. Interviews, Options and Pilot (S6–S8)	BLOCKER	A	**Business units to interview — names and number**	4a · «UNITS TO INTERVIEW», 4.1 at most «N» units, 9. «N» units, Driver 1		Not answered	Band driver for A: ≤ 6 · 7–10 · > 10	S6
34	F. Interviews, Options and Pilot (S6–S8)	BLOCKER	A	**Documents that can be shared — policies and procedures, organisation chart, system inventory, existing glossary or catalogue outputs**	4a · 3.5, 4.1 document review, 9. assumption, 7.4 risk		Not answered		S6
35	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Will information security, internal audit and the KVKK officer join the interviews	4a · 3.5, 4.1, 7.2		Not answered		At start of work
36	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Awareness sessions — participant group for the executive session and the general session	4a · 4.2, Table 7 «N» working days		Not answered		At start of work
37	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Who will organise the interviews; can the schedule be fixed in week 1	4a · 9. assumption, 7.4 risk		Not answered		At start of work
38	F. Interviews, Options and Pilot (S6–S8)	BLOCKER	A	**Which optional blocks go into the proposal — none / technology selection / process and data flow analysis / DQ assessment**	4a · 4.8–4.10, Tables 6, 7, 11, 12, Drivers 4–5		Not answered	Band drivers for A: technology selection no · yes; extra analysis modules none · 1 · 2+	S7
39	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Technology selection: are a requirements and criteria set, an RFI / RFP draft, POC scenarios and vendor evaluation wanted; candidate products	4a · «OPTIONAL — TECHNOLOGY SELECTION» 4.8, Table 6 rows 7–8, 7.4 risk		Not answered		S7
40	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Process and data flow analysis: flow of domain data from source to report, manual steps, Excel and personal tracking sheets	4a · «OPTIONAL — PROCESS AND DATA FLOW ANALYSIS» 4.9, Table 6 row 9		Not answered		S7
41	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	DQ assessment: number of records in the sample customer dataset; can the data leave for the Komtaş environment, or is a customer environment with tools used	4a · «OPTIONAL — DATA QUALITY ASSESSMENT» 4.10 «N» records, 9. assumptions		Not answered		S7
42	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Is a time and materials model preferred over a fixed fee	4a · 8.1 «OPTIONAL», Table 13 «day rate»		Not answered		S7
43	F. Interviews, Options and Pilot (S6–S8)	BLOCKER	A	**Name of the pilot domain and the sample dataset for the pilot**	4a · «PILOT DOMAIN» 4.6, Table 7 pilot row		Not answered		S8
44	F. Interviews, Options and Pilot (S6–S8)	BLOCKER	A	**Platform access for the pilot — who provides the Informatica environment, user accounts, permissions, source and network access**	4a · 4.6, 9. assumption		Not answered		S8
45	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Will pilot business terms and ownership be prepared in workshops; how many workshops	4a · 4.6 «OPTIONAL» «N» workshops		Not answered		S8
46	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Will the pilot run on a platform other than Informatica	4a · 4.6 FILL NOTE, 9. product name		Not answered		S8
47	F. Interviews, Options and Pilot (S6–S8)	Assumption	A	Is a second pilot domain wanted	4a · Driver 2, 4.6		Not answered	A second pilot domain moves the band to L (domains 2+)	S8
48	G. Modules and Sources (S9–S10)	BLOCKER	B	**Which modules — B1 / B2 / B3; together or in sequence**	4b · Sections 5–7, Tables 1, 2, 28		Not answered	Duration guide: B1 ~4, B2 ~7, B3 ~8 weeks (B3 in parallel)	S9
49	G. Modules and Sources (S9–S10)	BLOCKER	B	**Variant — standard modules / Migration (on-prem → IDMC) / Rollout (installed platform, new domains)**	4b · «VARIANT BLOCK — MIGRATION» 9.1 / «VARIANT BLOCK — ROLLOUT» 9.2		Not answered	Migration 62 working days / 95–107 person-days; Rollout 12 weeks per wave of 4 domains	S9
50	G. Modules and Sources (S9–S10)	Assumption	B	B1: number of basic data governance policies to apply and number of business glossary processes to create	4b · 5.1 «N» policies, «N» processes		Not answered		Settled in analysis
51	G. Modules and Sources (S9–S10)	Assumption	B	B1: will data owners prepare business terms with the template, or through Komtaş workshops; number of workshops	4b · 5.1 «OPTIONAL» «N» workshops		Not answered		Assumption in proposa
52	G. Modules and Sources (S9–S10)	Assumption	B	B1: custom fields, mandatory flags and dropdown values; approval workflow expectation	4b · 5.1, 4.1 approval mechanism (IDMC), 5.3 B1.1 SMX document		Not answered		Settled in analysis
53	G. Modules and Sources (S9–S10)	BLOCKER	B	**Source systems — type, version, count; databases, ETL and reporting tools**	4b · «SOURCE SYSTEMS» 6.1, 5.1, Driver 1		Not answered	Band driver for B: ≤ 4 · 5–6 · > 6	S10

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
54	G. Modules and Sources (S9–S10)	BLOCKER	B	**Total number of tables and reports in the metadata scope**	4b · 6.1 «N» tables / «N» reports, 5.1 «N» tables (without B2), Drivers 2–3		Not answered	Band drivers for B: tables ≤ 1,000 · ≤ 2,500 · > 2,500; reports ≤ 500 · ≤ 500 · > 500	S10
55	G. Modules and Sources (S9–S10)	Assumption	B	Are there unsupported or custom sources; can the customer provide the data model and metadata inputs	4b · 6.1 custom source items		Not answered		Settled in analysis
56	G. Modules and Sources (S9–S10)	Assumption	B	Is there non-standard development in ETL and reporting tools — dynamic SQL, scripts, table name changes	4b · 6.1 impact analysis, 11.4 risk		Not answered		Stated in proposal
57	G. Modules and Sources (S9–S10)	Assumption	B	Expected metadata scan frequency — weekly / monthly	4b · 6.1		Not answered		At start of work
58	G. Modules and Sources (S9–S10)	Assumption	B	Migration: number of business terms to migrate and source inventory per technology (instances, resources)	4b · 9.1 «N» business terms, «SOURCE INVENTORY», Table 17		Not answered		S10
59	G. Modules and Sources (S9–S10)	Assumption	B	Migration: third-party applications to integrate with IDMC and number of API integrations; metric feed to an external reporting tool	4b · 9.1 «N» API integrations, «OPTIONAL» item, Table 19		Not answered		S10
60	G. Modules and Sources (S9–S10)	Assumption	B	Rollout: domains to roll out, domains per wave; upper limit of business terms and DQ rules per domain	4b · «DOMAINS» 9.2, «N» domains, «N» terms, «N» rules, Table 21 «N» weeks		Not answered		S10
61	H. DQ, Tagging and Infrastructure (S11–S12)	BLOCKER	B	**Source system(s) for the DQ work and total number of records (active and inactive)**	4b · 7.1 «N» source systems («SYSTEM»), «N» records		Not answered		S11
62	H. DQ, Tagging and Infrastructure (S11–S12)	BLOCKER	B	**DQ scope — number of data domains, business terms and DQ rules**	4b · 7.1 «N» domains, «N» terms, «N» rules; Migration 9.1 «N» rules; Driver 5		Not answered	Band driver for B: DQ rules ≤ 100 · ≤ 200 · > 200	S11
63	H. DQ, Tagging and Infrastructure (S11–S12)	Assumption	B	DQ business terms — person / customer fields (name, TCKN, VKN, e-mail, phone, address) or domain-specific terms	4b · 7.1 term list and FILL NOTE		Not answered		Settled in analysis
64	H. DQ, Tagging and Infrastructure (S11–S12)	Assumption	B	Can an intermediate schema (Oracle, SQL Server, PostgreSQL) be provided for DQ results	4b · 7.1, 9.1 Data Quality		Not answered		Stated in proposal
65	H. DQ, Tagging and Infrastructure (S11–S12)	BLOCKER	B	**Tagging (B2) — system to tag, number of tables, number of sample records and number of business terms**	4b · 6.2 «N» systems («SYSTEM»), «N» records, «N» tables, «N» business terms		Not answered		S11
66	H. DQ, Tagging and Infrastructure (S11–S12)	Assumption	B	Are reference libraries (occupation, city, district) needed for tagging and DQ rules; is each below 10,000 rows	4b · 6.2, 7.1		Not answered		Assumption in proposa
67	H. DQ, Tagging and Infrastructure (S11–S12)	Assumption	B	Can rule definitions and tagging rules be provided by the customer by the end of the design phase	4b · 6.2, 7.1, 11.4 risk		Not answered		Stated in proposal
68	H. DQ, Tagging and Infrastructure (S11–S12)	BLOCKER	B	**Identity provider — Azure AD / Microsoft Entra ID with SAML, LDAP or other**	4b · «IDENTITY PROVIDER» 4.1 / 4.2, Table 4, 9.1 Infrastructure		Not answered		S12
69	H. DQ, Tagging and Infrastructure (S11–S12)	BLOCKER	B	**IDMC: who provides the Secure Agent server; are development, test and production separate**	4b · 4.1, 13.1, «PLATFORM BLOCK — IDMC» ANNEX-5		Not answered		S12
70	H. DQ, Tagging and Infrastructure (S11–S12)	Assumption	B	On-premises: are servers, operating system and database ready for Axon, EDC and IDQ	4b · 4.2, 13.2		Not answered		S12
71	H. DQ, Tagging and Infrastructure (S11–S12)	Assumption	B	Can the customer provide source access, firewall rules and JDBC drivers; access approval lead time	4b · 6.1, 13.1, 14. assumptions		Not answered		S12
72	H. DQ, Tagging and Infrastructure (S11–S12)	Assumption	B	Can an Informatica Connector be installed on source servers if needed	4b · 6.1, 9.1 Metadata		Not answered		At start of work
73	I. Workshops, Training and Support (S15)	Assumption	B	Participants of the platform workshop and the end-user workshop — DG office, business units	4b · 8.1, Table 1 «N» days		Not answered		At start of work
74	I. Workshops, Training and Support (S15)	Assumption	B	Is technology training wanted; model — digital content (LMS) / classroom training (online or on-site)	4b · 8.2 «OPTIONAL», Table 16 «N» hours / «N» days / «fee»		Not answered		S15
75	I. Workshops, Training and Support (S15)	Assumption	B	Number and roles of training participants (at most 15 per class; employees of the licence holder only)	4b · 8.2, Table 16		Not answered		S15
76	I. Workshops, Training and Support (S15)	Assumption	B	Is post-go-live support wanted; for how many months and at most how many days per week	4b · 8.3 «N» months, «N» days, Tables 1, 28		Not answered		S15
77	I. Workshops, Training and Support (S15)	Assumption	B	Interest in Service C (Managed Service) after the support period	4b · 8.3 last paragraph, Table 28		Not answered		Sales knows
78	J. Capacity and Support (S13–S14)	BLOCKER	C	**Monthly MSU capacity — 100 / 150 / 200+ (together with the monthly mix estimate)**	4c · Table 1 «N» MSU, 3.1, Table 9 «N» MSU × «N»		Not answered	Band: S 100 · M 150 · L 200+; 150 in all observed proposals	S13
79	J. Capacity and Support (S13–S14)	BLOCKER	C	**Service period — standard 12 months**	4c · Table 1 «N» months, Table 6, Table 9, 12.1 «N» months		Not answered		S13
80	J. Capacity and Support (S13–S14)	Assumption	C	Is the hypercare entry option wanted; for how many months and at most how many days per week	4c · 4.4 «OPTIONAL» «N» months, «N» days; Tables 1, 5, 6, 9		Not answered		S13
81	J. Capacity and Support (S13–S14)	Assumption	C	Service start date; within how many working days of contract signature	4c · 10. «N» working days, Table 6 service start «N» weeks		Not answered		Assumption in proposa
82	J. Capacity and Support (S13–S14)	Assumption	C	Open topics to take over from Service B and the first backlog	4c · Table 6 service start		Not answered		At start of work
83	J. Capacity and Support (S13–S14)	BLOCKER	C	**Expected monthly request mix — DQ and DG items and counts (3c table)**	4c · Table 3 catalogue, S13 package choice		Not answered		S14
84	J. Capacity and Support (S13–S14)	Assumption	C	Support hours — are weekdays 08:00–17:00 and 7×24 for P1 sufficient	4c · 5. Service Levels; if different, 10. assumption		Not answered		S14
85	J. Capacity and Support (S13–S14)	Assumption	C	Are the priority definitions and first response times accepted — P1 1 hour, P2 4 hours, P3 next business day	4c · 5. Table 4		Not answered	A non-standard SLA is confirmed with delivery before the proposal	S14
86	J. Capacity and Support (S13–S14)	Assumption	C	Request channel and planning meeting frequency	4c · 3.2 Table 2, 8.3		Not answered		At start of work
87	J. Capacity and Support (S13–S14)	Assumption	C	Do third parties change the platform or the source systems	4c · 8.4 risk, 10. assumption		Not answered		Assumption in proposa
88	J. Capacity and Support (S13–S14)	Assumption	C	Is on-site work expected	4c · 10. «CITY», 11. Out of Scope		Not answered		Assumption in proposa

MINIMUM QUESTION SET FOR THE PROPOSAL — 15 QUESTIONS

When these fifteen questions are answered, selected by the SERVICE column, the proposal can be written: eight questions for A, ten for B, seven for C. Fifty-six of the eighty-eight questions in the list are combined here; the remaining thirty-two stay for the start of the work, on the sales side, in the analysis, or in the proposal as an assumption or statement.

#	BLOCK	SERVICE	QUESTION	WHY IT IS NEEDED	IF NO ANSWER	ANSWER	STATUS	QUESTIONS COVERED
S1	COMMON · DETAILS	A · B · C	**Which legal entities and group companies are in scope; is there an RFP or specification; how do the procurement process and the pricing model (fixed fee, time and materials) work?**	The cover, 1. Executive Summary «CUSTOMER CONTEXT» and «GROUP COMPANIES», and the terms section are written from this. If there is an RFP, the proposal is structured accordingly and the answers to its requirements list become Annex 3. If T&M is requested, 4a 8.1 is kept.	**Proposal cannot be written**		Not answered	1, 2, 4, 6
S2	COMMON · DECISION	A · B · C	**Which data governance work exists today (policies, roles, glossary, catalogue, DQ) and on which platform? What triggers the work; which tier(s) are wanted — A Strategy & Framework / B Technology Enablement / C Managed Service? Who decides, and when?**	Service selection depends on this answer. B assumes a framework (A or equivalent); without one, A is proposed first or together. C assumes an installed, live platform. 1. Executive Summary, 4a «DECISION» and Table 1 are written from this; the decision date sets proposal and price validity.	**Service cannot be selected**		Not answered	9, 10, 11, 12, 14, 15
S3	COMMON · SPONSOR	A · B · C	**Is the sponsor named; is there a DG office or committee; can a project coordinator (for C, a service owner and a request coordinator) be assigned?**	The expected participation section (4a 7.2, 4b 11.2, 4c 8.2) and the assumptions are written from this. An existing DG office or committee is the starting point of the organisation model in A. Without a sponsor, no steering committee can be set up and the adoption risk is written into 7.4.	Schedule cannot be given		Not answered	16, 17, 18
S4	COMMON · SCOPE	A · B · C	**Which pilot or priority domain(s); which business units are in scope; how many group companies are in scope?**	4a «PILOT DOMAIN» and 4b «DOMAIN» are filled in from this. Band drivers: domains 1 · 1 · 2+ (A and B); legal entities or group companies 1 · 2–3 · > 3 (A). With more than one group company, the «OPTIONAL» rows in 4a 4.3 and 7.4 are kept.	Band cannot be selected		Not answered	21, 22, 23
S5	COMMON · PLATFORM	A · B · C	**Is Informatica in place or planned; IDMC (cloud) or on-prem (Axon / EDC / IDQ)? What is the licence status (in place, to be procured, separate proposal)?**	Decides which platform block is kept in 4b («PLATFORM BLOCK — IDMC» / «ON-PREM») and the Migration variant, and on which platform the A pilot runs. Licence prices are not written into the templates; the separate proposal is referenced through «LICENCE PROPOSAL REF». If no technology decision has been made, the technology selection option is proposed in A.	**Platform block cannot be selected**		Not answered	27, 28, 29, 30, 32
S6	A · INTERVIEWS	A	**Which business units will be interviewed (names, number)? Can documents such as policies, the organisation chart and the system inventory be shared?**	4a 4.1 «UNITS TO INTERVIEW» and at most «N» units are written from this. Band driver: ≤ 6 · 7–10 · > 10. Without documents, information is gathered in workshops and this is written as a risk in 7.4.	Schedule cannot be given		Not answered	33, 34
S7	A · OPTIONS	A	**Which optional blocks are needed: technology selection support (RFI / RFP, POC), process and data flow analysis, DQ assessment on a sample dataset?**	Decides which of 4a 4.8–4.10 and their rows in Tables 6, 7, 11 and 12 are kept. Band drivers: technology selection support no · yes; extra analysis modules none · 1 · 2+. For the DQ assessment, the number of records is written as «N».	Options cannot be written		Not answered	38, 39, 40, 41, 42
S8	A · PILOT	A	**Is the pilot domain named; can access to the platform environment, sample data and metadata be provided for the pilot?**	The 4a 4.6 pilot needs a platform environment. If access cannot be provided, where the pilot runs is settled before the proposal; otherwise the pilot scope is written as an assumption in 9. The «N» pilot workshops are written from this.	Pilot scope cannot be written		Not answered	43, 44, 45, 46, 47
S9	B · MODULES	B	**Which modules are requested — B1 glossary and dictionary, B2 catalogue, lineage and classification, B3 data quality? Variant: standard, Migration (on-prem → IDMC) or Rollout (installed platform, new domains)?**	Decides which of 4b Sections 5–7 are kept or which variant (9.1 / 9.2) replaces them. Module duration guide: B1 ~4, B2 ~7, B3 ~8 weeks (B3 in parallel). Modules not sold are deleted from Tables 1 and 28.	**Proposal cannot be written**		Not answered	48, 49
S10	B · SOURCES	B	**Source systems (type, version, count); approximate number of tables and reports? Migration: terms, source inventory and number of APIs. Rollout: domains per wave.**	4b 6.1 «SOURCE SYSTEMS», «N» tables, «N» reports; 9.1 «SOURCE INVENTORY»; 9.2 «DOMAINS» are filled in from this. Band drivers: source systems ≤ 4 · 5–6 · > 6; tables ≤ 1,000 · ≤ 2,500 · > 2,500; reports ≤ 500 · ≤ 500 · > 500.	Band cannot be selected		Not answered	53, 54, 58, 59, 60
S11	B · DQ	B	**On which system is DQ done; number of records, business terms and DQ rules? Tagging on which system, for how many tables and terms?**	4b 7.1 «SYSTEM», «N» records, «N» terms, «N» rules and 6.2 «SYSTEM», «N» tables, «N» sample records, «N» terms are filled in from this. Band driver: DQ rules ≤ 100 · ≤ 200 · > 200.	B3 and tagging scope cannot be written		Not answered	61, 62, 65
S12	B · INFRASTRUCTURE	B	**Can the Secure Agent server (IDMC) or the Axon / EDC / IDQ servers (on-prem) be provided; identity provider (Azure AD SAML / LDAP); environments, access and JDBC drivers?**	4b 4.1 / 4.2 «IDENTITY PROVIDER», the 13 installation activities and the 14 assumptions are written from this. If servers and access are not ready, the start slips and this is written as a risk in 11.4.	Schedule cannot be given		Not answered	68, 69, 70, 71
S13	C · CAPACITY	C	**How many MSU per month, for how many months? Is the platform live; is hypercare (post-go-live «N» months) requested as the entry option?**	4c Table 1, 3.1 and Table 9 are written from this. Band: S 100 · M 150 · L 200+ MSU / month, 12 months; 150 in all observed proposals. If hypercare is not requested, 4c 4.4 and its row in Table 9 are deleted.	**Fees cannot be written**		Not answered	78, 79, 80
S14	C · SUPPORT	C	**Support hours and priority expectations (standard: weekdays 08:00–17:00, P1 7×24; 1 hour / 4 hours / next business day)? What is the expected DQ / DG work mix?**	The 4c 5 service levels are standard; a tighter SLA is confirmed with delivery before the proposal. The work mix is entered in the 3c monthly mix estimate and checks the MSU band.	Service levels cannot be written		Not answered	83, 84, 85
S15	B · TRAINING	B	**Is technology training requested — digital content or classroom; how many participants? How many months of post-go-live support are requested?**	4b 8.2 «OPTIONAL» and Table 16, 8.3 «OPTIONAL» «N» months and the Table 28 rows are written from this. Classroom training is at most 15 people. An option not requested is deleted.	Options cannot be written		Not answered	74, 75, 76

NOTE

S1–S5 are common to all three services; if more than one service is proposed to the same customer, they are asked once. S6–S8 are asked for A only; S9–S12 and S15 for B only; S13–S14 for C only. If A has been done, the S3 and S4 answers for B are taken from A's output (organisation model, pilot, roadmap). S12 is not an access list: user accounts, service accounts and firewall rules are opened once at the start of the work; S12 is asked at proposal stage because the server and identity provider change the schedule and the 4b platform text. Band: the highest band reached by at least three drivers; values calibrated on proposal plans, to be updated with actual effort.

32 QUESTIONS OUTSIDE THE PROPOSAL SET

They were not deleted; when they are asked has been clarified. Some are never asked — they are written in the proposal as an assumption or statement.

WHEN	COUNT	RATIONALE
At start of work	10	IT / data architecture and information security representatives, in A the participation of information security, internal audit and the KVKK officer, awareness session participants, organisation of the interviews, in B the metadata scan frequency, Connector installation and workshop participants, in C the size of the existing content, topics taken over from Service B, the request channel and planning meeting frequency. Asked at the kick-off and interview planning in A, at the start of the analysis phase in B, at service start in C.
Sales knows	5	Sector and context paragraph, proposal addressee and dates, competitor situation, AI initiatives, interest in Service C after B. The commercial framework is the responsibility of sales; it is taken from the CRM or the sales representative.
Settled in analysis	5	Data owner and steward assignments, B1 number of policies and glossary processes, B1 custom fields and approval workflow, unsupported / custom sources, type of DQ business terms. Settled in the maturity assessment in A and in the analysis and design phase in B; not asked for the proposal. If the customer knows them, they are written into the context paragraph as a statement.
Assumption in proposal	7	On-site city and expectation, licences in place on time and valid for the service period, who prepares the B1 terms, reference libraries, in C the start time and third-party changes. If unanswered, they are written into the assumptions (4a 9, 4b 14, 4c 10): mainly remote work, licences in place on time, data owners prepare definitions with the template, each reference library below 10,000 rows, changes notified in advance.
Stated in proposal	5	Out-of-scope domains, units and companies, new domains or sources in C (a Service B topic), the lineage impact of non-standard development, the DQ intermediate schema and the customer delivering rule definitions by the end of the design phase. These are to be stated, not asked: they are written in 4a 10, 4b 6.1, 7.1, 15 and 4c 11.
Total	32	56 of the 88 questions were merged into the 15 questions of the Proposal Set; the remaining 32 were distributed across the five buckets above.

PROPOSAL READINESS STATUS

This sheet is calculated automatically. Whether the proposal can be written is decided separately for each service, based on the related questions on the Proposal Set sheet (SERVICE column): A 8, B 10, C 7 questions.

MEASURE	A · STRATEGY & FRAMEWORK	B · TECHNOLOGY ENABLEMENT	C · MANAGED SERVICE	DESCRIPTION
Number of proposal set questions	8	10	7	Common questions (S1–S5) and service-specific questions
Answered	0	0	0	STATUS column on the Proposal Set sheet
Partially answered	0	0	0	Written as an assumption in the proposal
Missing	8	10	7	Unanswered proposal question
Completion	0%	0%	0%	Answered / total
CAN THE PROPOSAL BE WRITTEN	**NO — 8 questions missing**	**NO — 10 questions missing**	**NO — 7 questions missing**	YES if missing is zero
Service questions (Questions)	40	57	38	Questions carrying the relevant letter in the SERVICE column of the full list
Service questions — deferred to start of work	4	4	4	Asked at the kick-off in A, at the start of the analysis phase in B, at service start in C
Questions in the whole form		88		Reference: full list of 88 questions (3a, 3b, 3c deduplicated)
Deferred to start of work (all)		10		Asked in the first week of the work

Rule: a service's proposal is not written until that service's proposal set is complete. If it must be written, each missing item is written into the assumptions section of the proposal, stating that the scope will be reassessed if the assumption does not hold.

STATUS BY SECTION

SECTION	QUESTION	BLOCKER	ANSWERED	MISSING BLOCKER
A. Organisation and Proposal Details (S1)	8	2	0	2
B. Trigger, Tier and Existing Work (S2)	7	5	0	5
C. Sponsor, DG Office and Coordination (S3)	5	2	0	2
D. Domain, Units and Companies (S4)	6	1	0	1
E. Platform and Licence (S5)	6	2	0	2
F. Interviews, Options and Pilot (S6–S8)	15	5	0	5
G. Modules and Sources (S9–S10)	13	4	0	4
H. DQ, Tagging and Infrastructure (S11–S12)	12	5	0	5
I. Workshops, Training and Support (S15)	5	0	0	0
J. Capacity and Support (S13–S14)	11	3	0	3
Total	**88**	**29**	**0**	**29**

TO BE SENT TO THE SAT OFFICE AFTER THE MEETING

Once these items arrive, the proposal text can be produced.

#	ITEM	SENT	NOTE
1	This completed form (with the answers from the customer form entered)	No	
2	Your meeting notes — raw is fine, do not try to tidy them	No	
3	RFP / specification file and requirements list, if any	No	
4	Input form, if filled in (data-governance-3a-strategy-girdi-formu-en.docx, -3b-technology-enablement-girdi-formu-en.docx or -3c-managed-service-girdi-formu-en.docx)	No	
5	Documents shared by the customer: policies, organisation chart, system inventory, existing glossary or catalogue export	No	
6	For B, the source system list (type, version, number of tables and reports); for Migration the source inventory, for Rollout the domain list	No	
7	Service decision: A, B, C or combined; for A the optional blocks, for B the modules and variant, the platform block (IDMC / on-prem)	No	
8	Pricing decision: for A, the band (S / M / L); for B, the band per module and the training / support options; for C, monthly MSU and period; change request day rate	No	
9	Licence status and the number and date of the separate licence proposal («LICENCE PROPOSAL REF»)	No	
10	Team decision: which consultants will be assigned (for the team table); the DQ specialist's product experience (IDMC, IDQ)	No	

HOW TO USE

TWO-FILE SET-UP

Sent to the customer	data-governance-5-musteri-soru-seti-en.xlsx — twenty-two questions and an information note. The first question is which data governance work (policies, roles, glossary, catalogue, data quality) exists today and on which platform. The SERVICE column states which service each question is required for. Maturity levels, organisation model details, module and band selection, rule design and methodology are not asked of the customer; Komtaş proposes them based on the answers.
This file (internal)	data-governance-6-ic-soru-seti-en.xlsx — full list of 88 questions, the 15-question minimum set required for the proposal (by service: A 8, B 10, C 7) and those deferred to the start of the work. Answers from the customer form are entered in this file and the proposal is written from here.
Minimum set logic	Fifty-six of the eighty-eight questions have been merged into fifteen questions. S1–S5 are common to all three services; S6–S8 are the A block, S9–S12 and S15 the B block, S13–S14 the C block. Because the remaining thirty-two questions do not change the proposal, they are left to the start of the work, the sales side, the analysis, or the proposal as an assumption or statement. Criterion: if doubling the number in the answer does not double the work, the question is not a proposal question.

SERVICE column	A · Strategy and Framework Design, B · Technology Enablement, C · Managed Service. “A · B · C” marks a question asked in all three services, “A · B” or “B · C” one asked in two. Once the service to be proposed is known, only the questions carrying that letter are needed. B assumes a framework (A or equivalent), C an installed, live platform (S2).
Fields to fill in	On the Questions sheet, only the ANSWER (G), STATUS (H) and NOTE (I) columns are filled in; on the Proposal Set sheet, ANSWER (G) and STATUS (H). Yellow cells show the fields to fill in. Pre-written short explanations in the NOTE column may be added to without being deleted.
Other sheets	Figures on the Summary, Section Breakdown and Remaining 32 sheets are calculated automatically; do not change them by hand.
PRIORITY — BLOCKER	The proposal is not written until this question is answered; it cannot be filled with an assumption. The row stays red. For questions that are a blocker in one service and an assumption in another, the distinction is given in the NOTE column.
PRIORITY — Assumption	If left unanswered, it is written into the assumptions section of the proposal (4a 9, 4b 14, 4c 10).
STATUS — Answered	A clear answer was received. The row turns green.

STATUS — Partial	An answer was received but it is incomplete or unclear. Written as an assumption in the proposal.
STATUS — Not answered	Not yet asked, or no answer received.
“We don’t know” as an answer	This is also an answer and is often the first finding. STATUS is marked “Partial” and it is written in the NOTE field.
Writing the proposal	When the “CAN THE PROPOSAL BE WRITTEN” row for a service on the Summary sheet is YES, filling in that service's proposal template begins: for A data-governance-4a-strategy-teklif-sablonu-en.docx, for B data-governance-4b-technology-enablement-teklif-sablonu-en.docx, for C data-governance-4c-managed-service-teklif-sablonu-en.docx.
WHERE IT FILLS IN THE PROPOSAL	Format is “4b 6.1”: template (4a, 4b, 4c) and section number. “4a/4b/4c” refers to the corresponding section in all three templates. «PLATFORM BLOCK — IDMC» / «ON-PREM» refer to the two platform blocks in 4b, «VARIANT BLOCK — MIGRATION» / «ROLLOUT» to the variants in 4b 9.1 / 9.2; the block not used is deleted. Blocks and rows marked «OPTIONAL» are kept or deleted.
Source	The questions were produced by deduplicating data-governance-3a-strategy-girdi-formu-en.docx, data-governance-3b-technology-enablement-girdi-formu-en.docx and data-governance-3c-managed-service-girdi-formu-en.docx along the S1–S15 headings; the wording is taken from the «fields» of the 4a, 4b and 4c templates and the scope limits of the source proposals. The Proposal Set codes (S1–S15) are fixed in the application; do not change them. When a question's wording changes, both Excel files are updated.
Linked files	data-governance-1-blueprint-en.pptx — internal reference: ten-category maturity model, tiers, modules, bands, team and calibration. data-governance-2-musteri-sunumu-en.pptx — customer deck. The 3a / 3b / 3c input forms contain the band table, the service selection check and the blocker list; 3b also contains the source system and module selection tables, 3c the MSU catalogue summary and the monthly mix estimate.
Effort and band	A: S 30 working days / 40–50 person-days · M 40–45 working days / 80–90 person-days · L 60 working days / 110–120 person-days. B (1 domain, B1+B2+B3): S ~42 working days / ~100 person-days · M 52–61 working days / 120–165 person-days · L 80+ working days / 170+ person-days; module guide B1 ~4, B2 ~7, B3 ~8 weeks; Migration 62 working days / 95–107 person-days; Rollout 12 weeks per wave of 4 domains. C: S 100 · M 150 · L 200+ MSU / month, 12 months. The band is the highest band reached by at least three drivers. Values calibrated on proposal plans; to be updated with actual effort. This note is not written into the customer-facing 4a / 4b / 4c text.

EXAMPLE ROW

QUESTION	ANSWER / STATUS / NOTE
Source systems — type, product and version, count	“Oracle 19c and SQL Server 2016 databases, SSIS, Qlik Sense; number of reports not known” · Partial · “Four source systems (band driver S); report count to be settled in analysis, ≤ 500 assumed in the proposal”
