DATA WAREHOUSE ASSESSMENT — INTERNAL QUESTION SET

Komtaş internal working file. Not sent to the customer. All fifty questions are here; the minimum set required for the proposal is on the Proposal Set sheet.

#	SECTION	PRIORITY	QUESTION	WHERE IT FEEDS THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
1	A. Customer and Proposal Details	BLOCKER	**Organization and legal entities in scope (single company or group)**	Cover, 1. Executive Summary		Not answered		S12
2	A. Customer and Proposal Details	Assumption	Proposal addressee — name, title, unit	Cover, 9.2		Not answered		Sales knows
3	A. Customer and Proposal Details	Assumption	Proposal date and expected decision date	Cover, 9.1 validity		Not answered		Sales knows
4	A. Customer and Proposal Details	BLOCKER	**Is there an RFP / specification; if so, its number and format**	Structure of the entire proposal		Not answered		S12
5	A. Customer and Proposal Details	Assumption	Are there competitors, who	Emphasis and section weighting		Not answered		Sales knows
6	B. Decision — What the Assessment Will Support	BLOCKER	**Which decision will this assessment support — investment, platform change, budget justification, audit request, restructuring**	1. Executive Summary, 2.1 Program Objective		Not answered		S1
7	B. Decision — What the Assessment Will Support	BLOCKER	**Who will make the decision, and when**	1. Executive Summary, 7.2 sponsor		Not answered		S1
8	B. Decision — What the Assessment Will Support	Assumption	Has this topic come up before, and why did it not move forward	2.1, sales argument		Not answered		Sales knows
9	B. Decision — What the Assessment Will Support	BLOCKER	**Has the platform change decision already been made**	The proposal name changes: assessment or readiness		Not answered		S2
10	B. Decision — What the Assessment Will Support	Assumption	Has a similar assessment been done before; is its output available	2.x assumptions, baseline comparison		Not answered		Sales knows
11	C. Scope Drivers — 11 Sizing Metrics	BLOCKER	**Number of source systems feeding the data warehouse**	5. General Assumptions, 6. Timeline		Not answered		S5
12	C. Scope Drivers — 11 Sizing Metrics	BLOCKER	**Number of critical datasets in scope (who deems them critical)**	2.x Scope, 6. Timeline		Not answered		S6
13	C. Scope Drivers — 11 Sizing Metrics	Assumption	Number of subject areas	2.x Scope		Not answered		S6
14	C. Scope Drivers — 11 Sizing Metrics	BLOCKER	**How many separate warehouse / lake / lakehouse platforms are there**	2.x Scope, 7.1 team composition		Not answered		S4
15	C. Scope Drivers — 11 Sizing Metrics	Assumption	Number of reports and dashboards in the BI environment	2.x Scope		Not answered		In P0 phase
16	C. Scope Drivers — 11 Sizing Metrics	Assumption	Number of environments to be reviewed (prod only?)	5. General Assumptions		Not answered		In P0 phase
17	C. Scope Drivers — 11 Sizing Metrics	Assumption	Number of legal entities / regions in scope	1, 2.1		Not answered		S7
18	C. Scope Drivers — 11 Sizing Metrics	BLOCKER	**How long it takes to grant log, billing and catalog access**	5. General Assumptions, 7.4 risk		Not answered		S8
19	C. Scope Drivers — 11 Sizing Metrics	Assumption	Regulatory exposure (sector, multi-country)	2.x Out of scope, 9.1		Not answered		In P0 phase
20	C. Scope Drivers — 11 Sizing Metrics	BLOCKER	**How many days of query and usage history are retained**	2.x Assumptions, 6. Timeline		Not answered		S9
21	C. Scope Drivers — 11 Sizing Metrics	Assumption	Is there a baseline from a previous assessment	2.x Assumptions		Not answered		In P0 phase
22	D. Access and Evidence	BLOCKER	**Access model (Mode A: no access / Mode B: read-only access); if Mode B, can**	2.x Assumptions, 5, 7.4		Not answered		S8
23	D. Access and Evidence	BLOCKER	**Orchestrator / scheduler run history**	2.x Assumptions		Not answered		In P0 phase
24	D. Access and Evidence	Assumption	Platform billing records and workload tags	2.x Scope (cost dimension)		Not answered		In P0 phase
25	D. Access and Evidence	Assumption	Catalog and lineage export	2.x Scope (governance dimension)		Not answered		In P0 phase
26	D. Access and Evidence	BLOCKER	**Data model, DDL, job definitions**	2.x Assumptions		Not answered		In P0 phase
27	D. Access and Evidence	Assumption	Access authorization configuration	2.x Scope (security dimension)		Not answered		In P0 phase
28	D. Access and Evidence	Assumption	BI inventory and usage logs	2.x Scope (consumption dimension)		Not answered		In P0 phase
29	D. Access and Evidence	Assumption	Existing reconciliation outputs	2.x Scope (quality dimension)		Not answered		In P0 phase
30	D. Access and Evidence	BLOCKER	**How many steps in the access approval process, who approves**	5, 6, 7.4		Not answered		S8
31	E. Stakeholders and Interview Plan	BLOCKER	**Who is the project sponsor**	7.2, 5		Not answered		S1
32	E. Stakeholders and Interview Plan	BLOCKER	**Will a project coordinator be assigned**	7.2, 5		Not answered		In P0 phase
33	E. Stakeholders and Interview Plan	BLOCKER	**Platform / data engineering team — how many people, who**	7.2, 5, 6		Not answered		In P0 phase
34	E. Stakeholders and Interview Plan	Assumption	Are data owners defined; by name or by role	7.2, 2.x finding		Not answered		In P0 phase
35	E. Stakeholders and Interview Plan	BLOCKER	**Number and names of business units to be interviewed**	2.x Scope, 5 (number of interviews)		Not answered		S7
36	E. Stakeholders and Interview Plan	Assumption	Will there be senior management interviews, how many	2.x Scope, 5		Not answered		In P0 phase
37	E. Stakeholders and Interview Plan	Assumption	Information security / compliance contact	7.2		Not answered		In P0 phase
38	E. Stakeholders and Interview Plan	Assumption	Remote or on-site work; location	5. General Assumptions		Not answered		In P0 phase
39	F. Target Level and Scope Preferences	BLOCKER	**Are all 11 dimensions in scope; are any excluded**	2.x Scope, 2.x Out of scope		Not answered		S10
40	F. Target Level and Scope Preferences	BLOCKER	**Can a target maturity level be set per dimension**	2.x Scope, 1. Executive Summary		Not answered		In P0 phase
41	F. Target Level and Scope Preferences	BLOCKER	**Is a target-state recommendation requested, or only the current state**	Module structure (M1 / M1+M2)		Not answered		S3
42	F. Target Level and Scope Preferences	BLOCKER	**Is a benchmark expected — how do they define the expectation**	2.x Scope / Out of scope		Not answered		Stated in proposal
43	F. Target Level and Scope Preferences	Assumption	Are a roadmap and effort estimate expected	2.x Deliverables, Module-2		Not answered		S3
44	F. Target Level and Scope Preferences	Assumption	Deliverable language and format	4. Deliverables, 5		Not answered		In P0 phase
45	G. Commercial Framework	BLOCKER	**Is there a budget range or an approved budget**	8. Project Fees		Not answered		S11

#	SECTION	PRIORITY	QUESTION	WHERE IT FEEDS THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
46	G. Commercial Framework	BLOCKER	**Is modular purchasing expected (can M1 be purchased alone)**	8. Alternative-1 / Alternative-2		Not answered		S11
47	G. Commercial Framework	BLOCKER	**Procurement process — direct, tender, or framework agreement**	8, 9.1		Not answered		S12
48	G. Commercial Framework	Assumption	Payment terms and invoicing conditions	8 Payment table, 9.1		Not answered		In contract
49	G. Commercial Framework	Assumption	Is post-delivery support expected, for how many months	1, 6, 8		Not answered		In contract
50	G. Commercial Framework	Assumption	Contract / NDA status	9.1		Not answered		In contract

MINIMUM QUESTION SET FOR THE PROPOSAL — 12 QUESTIONS

Once these twelve questions are answered, the proposal can be written. Twenty-two of the fifty questions are consolidated here; the remaining twenty-eight are left to P0, the contract or the sales side.

#	BLOCK	QUESTION	WHY IT IS NEEDED	IF NOT ANSWERED	ANSWER	STATUS	QUESTIONS COVERED
S1	A · DECISION	**Which decision will this assessment support; who will make the decision, and when?**	The executive summary and the entire 2.1 Objective section are written from this. The sponsor and decision date determine the timeline.	**Proposal cannot be written**		Not answered	6, 7, 31
S2	A · DECISION	**Has a platform change decision been made; is there a constraint that will not change?**	The proposal name changes: assessment or readiness. If there is an investment to be preserved, the target-state options narrow.	**Proposal cannot be written**		Not answered	9
S3	A · DECISION	**Is only the current state requested, or also the target state and roadmap?**	M1 / M1+M2 structure. The single largest driver of duration and fee.	**Proposal cannot be written**		Not answered	41, 43
S4	B · SCALE	**How many separate warehouse, lake or BI platforms are there; which ones?**	Determines team composition and scope. Each additional platform increases effort linearly.	Band cannot be selected		Not answered	14
S5	B · SCALE	**Approximately how many source systems feed the warehouse?**	Main driver of the evidence collection and interview workload.	Band cannot be selected		Not answered	11
S6	B · SCALE	**Approximately how many critical datasets or subject areas are in scope; who says they are critical?**	Determines measurement scope. The "who says" part shows whether ownership is defined.	Band cannot be selected		Not answered	12, 13
S7	B · SCALE	**How many business units will be interviewed; how many legal entities are in scope?**	The number of interviews directly determines the timeline and cannot be shortened by adding people.	Band cannot be selected		Not answered	35, 17
S8	C · EVIDENCE CONSTRAINT	**Will Komtaş be given system access (Mode B), or will the work be carried out through interviews and on-screen walkthroughs (Mode A)? If Mode B, how many steps and how long does approval take for read access to query logs, system views and job history?**	The access model determines the evidence and assumption sections of the proposal. In Mode B, access lead time is the main driver of the timeline; in regulated organizations it can extend over weeks.	Timeline cannot be given		Not answered	18, 22, 30
S9	C · EVIDENCE CONSTRAINT	**How many days are these records retained? (In Mode A, asked only if the customer team will run the control queries.)**	If below thirty days, evidence cannot be produced for some dimensions; the measurement window narrows.	Scope reduction is stated in the proposal		Not answered	20
S10	D · SCOPE AND COMMERCIAL	**Are all eleven dimensions in scope; are any dimensions to be excluded or emphasized?**	Determines sections 2.2 Scope and 2.4 Out of Scope; an emphasized dimension affects team composition.	Scope section cannot be written		Not answered	39
S11	D · SCOPE AND COMMERCIAL	**Is there an approved budget or budget range; is modular purchasing expected?**	8. Fees and alternative structure. If modular purchasing is expected, M1 is priced on its own.	**Proposal cannot be written**		Not answered	45, 46
S12	D · SCOPE AND COMMERCIAL	**How does the procurement process work; is there an RFP or specification; which legal entities are in scope?**	Determines the proposal format, the 9.1 terms and the cover information.	**Proposal cannot be written**		Not answered	47, 4, 1

NOTE

S8 and S9 are not an access list. Questions such as "Can a catalog export be obtained" and "Will the DDL be shared" are raised together in P0; S8 and S9 are asked at the proposal stage because S8 changes the timeline and S9 changes the scope.

28 QUESTIONS OUTSIDE THE PROPOSAL SET

They were not deleted; when they will be asked has been clarified. Some are never asked — they are stated as out of scope in the proposal.

WHEN	COUNT	RATIONALE
In P0 phase	19	Catalog and lineage export, billing records, BI inventory, reconciliation outputs, access authorization configuration, data owners, project coordinator, security contact, senior management interviews, target level per dimension, number of environments, work location. Asked when the access list is opened and the interview plan is set up; the answers do not change the band.
Sales knows	5	Proposal addressee, proposal date, competitor situation, history of the topic, existence of a previous assessment. Not asked to the customer; obtained from the CRM or the sales representative.
In contract	3	Payment terms, invoicing conditions, NDA and post-delivery support. Clarified in the commercial discussion after the proposal is submitted.
Stated in proposal	1	Benchmark expectation. This is to be stated, not asked: the out-of-scope section of the proposal already states that no benchmark is performed.
Total	28	22 of the 50 questions were consolidated into the 12 questions in the Proposal Set; the remaining 28 were distributed into the four buckets above.

PROPOSAL READINESS STATUS

This sheet is calculated automatically. Whether the proposal can be written is decided based on the twelve questions on the Proposal Set sheet.

MEASURE	VALUE	DESCRIPTION
Proposal set question count	**12**	Consolidated form of twenty-two of the fifty questions
Answered	**0**	STATUS column on the Proposal Set sheet
Partially answered	**0**	Stated as an assumption in the proposal
Missing	**12**	Unanswered proposal question
Completion	**0%**	Answered / total
CAN THE PROPOSAL BE WRITTEN	**HAYIR — 12 soru eksik**	YES if Missing is zero
Questions in the full form	**5000%**	Reference: full list of fifty questions
Deferred to P0	**0**	Asked in the first week of the engagement

Rule: the proposal is not written until the proposal set is complete. If it must be written, each missing item is written into section 5 of the proposal as an assumption and it is stated that the scope will be re-evaluated if that assumption does not hold.

STATUS BY SECTION

SECTION	QUESTION	BLOCKER	ANSWERED	MISSING BLOCKER
A. Customer and Proposal Details	5	2	0	2
B. Decision — What the Assessment Will Support	5	3	0	3
C. Scope Drivers — 11 Sizing Metrics	11	5	0	5
D. Access and Evidence	9	4	0	4
E. Stakeholders and Interview Plan	8	4	0	4
F. Target Level and Scope Preferences	6	4	0	4
G. Commercial Framework	6	3	0	3

TO BE SENT TO THE SAT OFFICE AFTER THE MEETING

Once these items are received, the proposal text can be produced.

#	ITEM	SENT?	NOTE
1	This completed form	No	
2	Your meeting notes — raw form is fine, do not try to clean them up	No	
3	RFP / specification file, if any	No	
4	Architecture, inventory or organization chart shared by the customer	No	
5	Pricing decision: which band, module-based or integrated	No	
6	Team decision: which consultants will be assigned (for table 7.1)	No	

HOW TO USE

TWO-FILE SETUP

Sent to customer	dwh-assessment-5-musteri-soru-seti-en.xlsx — eleven questions and a financial sector annex. Scope, dimension, level and methodology questions are not asked to the customer; Komtaş proposes these based on the answers.
This file (internal)	dwh-assessment-6-ic-soru-seti-en.xlsx — the full list of fifty questions, the twelve-question minimum set required for the proposal, and the questions deferred to P0. Answers from the customer form are entered into this file, and the proposal is written from here.
Minimum set logic	Twenty-two of the fifty questions are consolidated into twelve. The remaining twenty-eight do not change the proposal, so they are left to the first week of the engagement (P0), the contract or the sales side. Criterion: if doubling the number in the answer does not double the work, that question is not a proposal question.

Fields to fill in	On the Questions sheet, only the ANSWER (F), STATUS (G) and NOTE (H) columns are filled in. Yellow cells indicate the fields to fill in.
Other sheets	The Summary and Section Breakdown sheets are calculated automatically; do not edit them manually.
PRIORITY — BLOCKER	The proposal is not written until this question is answered; it cannot be filled with an assumption. The row stays red.
PRIORITY — Assumption	If left unanswered, it is written into section 5 of the proposal as an assumption.
STATUS — Answered	A clear answer was received. The row turns green.
STATUS — Partial	An answer was received but it is incomplete or unclear. It is stated as an assumption in the proposal.
STATUS — Not answered	Not yet asked, or no answer received.
“We don’t know” answer	This is also an answer and is often the first finding. STATUS is marked “Partial” and it is recorded in the NOTE field.
Proposal writing	When the “CAN THE PROPOSAL BE WRITTEN” row on the Summary sheet shows YES, filling in the proposal template begins.
Source	The questions were generated from dwh-assessment-3-teklif-girdi-formu-en.docx. When the question text changes, both files are

EXAMPLE ROW

QUESTION	ANSWER / STATUS / NOTE
Total number of tables / views	“Approximately 4,200 tables, number of views unknown” · Partial · “View inventory to be produced in P0”
