LAKEHOUSE ASSESSMENT — INTERNAL QUESTION SET

Komtaş internal working file. Not sent to the customer. The deduplicated questions from the 3a, 3b and 3c input forms (69 questions) are here; the SERVICE column shows which service the question is asked in. The minimum set needed for the proposal is on the Proposal Set sheet.

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
1	A. Organisation and Proposal Details	BLOCKER	A · B · C	**Organisation and legal entities in scope — single company or group**	4a/4b/4c · Cover, 1		Not answered		S1
2	A. Organisation and Proposal Details	Assumption	A · B · C	Proposal addressee — name, title, unit	4a/4b/4c · Cover, 9.2		Not answered		Sales knows
3	A. Organisation and Proposal Details	Assumption	A · B · C	Proposal date and expected decision date	4a/4b/4c · Cover, 9.1 validity		Not answered		Sales knows
4	A. Organisation and Proposal Details	BLOCKER	A · B · C	**Is there an RFP or specification; if so, its number and response format**	4a/4b/4c · structure of the whole proposal		Not answered	Blocker in B; assumption in A and C	S1
5	A. Organisation and Proposal Details	Assumption	A · B	Are there competitors, and who	4a/4b · emphasis and section weights		Not answered		Sales knows
6	B. Decision and Problem Definition	BLOCKER	A · B	**Which decision will this assessment support — investment, platform change, budget defence, audit request, restructuring**	4a/4b · 1, 2.1		Not answered		S2
7	B. Decision and Problem Definition	BLOCKER	A · B	**Is the expected output a red / amber / green status and findings per heading, or current and target level per area with a roadmap**	Service selection — 4a or 4b; 4a · 2.2, 3.1		Not answered	Blocker in 3a; if the answer points to B, 3b is used	S2
8	B. Decision and Problem Definition	Assumption	A · B · C	Who will make the decision, and by what date	4a/4b/4c · 6, 9.1 validity		Not answered		S2
9	B. Decision and Problem Definition	Assumption	A · B	What is the most frequent complaint today; known open issues — performance, cost, trust	4a/4b · 3.2 (P1 focus areas)		Not answered		In P0
10	B. Decision and Problem Definition	Assumption	B	How will success be measured — which outcome counts as "done"	4b · 1		Not answered		In P0
11	B. Decision and Problem Definition	Assumption	A · B · C	Has an assessment (A, B or other) been done before; what was the outcome, can the evidence inventory be reused	4a/4b/4c · 5.1; 4b · baseline comparison; 4c · evidence reuse		Not answered	A's evidence inventory is reused in B or C and is not invoiced twice	Sales knows
12	B. Decision and Problem Definition	BLOCKER	C	**Which technical problem or decision is being reviewed**	4c · 1, 2.1		Not answered		S2
13	B. Decision and Problem Definition	BLOCKER	C	**How does the problem show itself today — which measurement, which complaint**	4c · 3.3 (P1 focus), acceptance criterion		Not answered		S11
14	B. Decision and Problem Definition	BLOCKER	C	**Which question is expected to be answered at the end of the engagement**	4c · 2.1, acceptance criterion		Not answered		S11
15	B. Decision and Problem Definition	Assumption	C	Has this problem been worked on before; what was tried	4c · 5.1		Not answered		In P0
16	C. Scope and Area Selection	BLOCKER	A · B	**Which platform is to be assessed — lakehouse, data warehouse or both**	4a/4b · 2.1, 2.5		Not answered		S3
17	C. Scope and Area Selection	BLOCKER	A	**Are all six headings in scope**	4a · 2.3		Not answered		S6
18	C. Scope and Area Selection	Assumption	A	Are the ML feeding and BI serving headings required	Service selection — if required, 4b; 4a · 2.5		Not answered	Out of scope in A	S6
19	C. Scope and Area Selection	BLOCKER	B	**Are all eight areas in scope; is any area to be excluded**	4b · 2.3, «OUT-OF-SCOPE AREA»		Not answered		S8
20	C. Scope and Area Selection	BLOCKER	C	**Which areas are selected from the seven-area menu — at least one area; the number of selected areas determines the duration (1–2 areas 2 weeks, 3–4 areas 3 weeks, 5–7 areas 4 weeks)**	4c · 2.3 «SELECTED AREAS», 2.4, 2.5, 6		Not answered	Area list in section D of 3c; selection is finalised in P0	S12
21	C. Scope and Area Selection	Assumption	A · B	Number of domains or business units in scope	4a/4b · 2.4		Not answered		Assumption in proposal
22	C. Scope and Area Selection	Assumption	A · B	Are any environments, regions or areas to be excluded from scope	4a/4b · 2.5		Not answered		In P0
23	C. Scope and Area Selection	Assumption	B	Are non-production environments in scope	4b · 2.4, 5.1		Not answered		In P0
24	D. Environment and Technology	BLOCKER	A · C	**Which platform is the lakehouse built on — product and version (Databricks, Snowflake, Cloudera, open source or other)**	4a · 2.4; 4c · 2.4, 3.4 expertise check		Not answered		S3
25	D. Environment and Technology	BLOCKER	A · B	**Table format(s) in use — Iceberg, Delta, Hudi, raw parquet**	4a/4b · 2.4 (band driver)		Not answered	Blocker in B; assumption in A	S3
26	D. Environment and Technology	BLOCKER	A · B	**Query engine(s)**	4a/4b · 2.4 (band driver)		Not answered	Blocker in B; assumption in A	S3
27	D. Environment and Technology	Assumption	A · B	Object storage and cloud provider	4a/4b · 2.4		Not answered		In P0
28	D. Environment and Technology	Assumption	B	Processing layer — Spark, dbt or other	4b · 2.4; 2.3 Data Integration Modernization		Not answered		In P0
29	D. Environment and Technology	Assumption	B	Orchestration tool	4b · 2.3 Platform Operations & Observability		Not answered		In P0
30	D. Environment and Technology	Assumption	A · B	Catalogue product; information on the share of registered tables	4a · 2.4; 4b · 2.3 Governance & Security Modernization		Not answered		In P0
31	D. Environment and Technology	Assumption	A · B	Is there a streaming pipeline, and with which technology; approximate number	4a/4b · 2.4 (band driver in B)		Not answered		Assumption in proposal
32	D. Environment and Technology	Assumption	C	Deployment model — SaaS, managed service, self-hosted	4c · 2.4		Not answered		In P0
33	D. Environment and Technology	Assumption	C	Do the version and licence level restrict measurement access	4c · 5.1		Not answered		In P0
34	E. Expertise Check	BLOCKER	C	**Does Komtaş have delivery experience on this platform — internal assessment**	4c · 3.4; proposal feasibility decision		Not answered	Internal check; not asked of the customer	S13
35	E. Expertise Check	BLOCKER	C	**If there is no experience, will a named external specialist be engaged — full name and area; if not, the area is out of scope**	4c · 3.4, 5.1, 7.1, 8.1		Not answered	External specialist effort on a separate line in 8.1	S13
36	F. Scale and Volume	BLOCKER	A · B	**Total number of tables**	4a/4b · 2.4 (driver 1)		Not answered		S5
37	F. Scale and Volume	BLOCKER	A · B	**Total data volume — state whether raw or compressed**	4a/4b · 2.4 (driver 2)		Not answered		S5
38	F. Scale and Volume	Assumption	B	Daily data volume growth	4b · 2.4 (driver 3)		Not answered		Assumption in proposal
39	F. Scale and Volume	Assumption	A · B	Number of source systems	4a/4b · 2.4		Not answered		Assumption in proposal

#	SECTION	PRIORITY	SERVICE	QUESTION	WHERE IT FILLS IN THE PROPOSAL	ANSWER	STATUS	NOTE	PROPOSAL SET
40	F. Scale and Volume	Assumption	A · B · C	Number of environments — dev, test, prod, DR	4a/4b/4c · 2.4		Not answered		Assumption in proposal
41	F. Scale and Volume	Assumption	A · B	Daily query volume and number of active users or consumers	4a/4b · 2.4; 4b · 2.3 Query & Analytics Enablement		Not answered		Assumption in proposal
42	F. Scale and Volume	BLOCKER	C	**Number of objects in the selected areas — tables, pipelines, jobs or queries**	4c · 2.4		Not answered		S12
43	G. Access and Evidence	BLOCKER	A	**Estimated number of people to be interviewed**	4a · 2.4, 6		Not answered		S7
44	G. Access and Evidence	BLOCKER	A	**Can an architecture document, data flow diagram or similar document be shared**	4a · 3.2 (P1 evidence collection), 5.2		Not answered		S7
45	G. Access and Evidence	Assumption	A	Can the platform team give an on-screen walkthrough — no system access is requested	4a · 3.2, 7.2		Not answered		In P0
46	G. Access and Evidence	BLOCKER	B	**Which access model — Mode A (guided: Komtaş is not given system access; the customer team runs the agreed control queries and shares the output) or Mode B (read-only access); the final decision is made in P0**	4b · «MOD A» / «MOD B» paragraphs, 5.2, 6		Not answered		S9
47	G. Access and Evidence	BLOCKER	B · C	**How does the access approval process work, and how long is it expected to take (Mode B in B, and C) · If Mode A in B: who will run the control queries, and how soon can outputs be shared**	4b · 2.4 (driver 10), 6; 4c · 6		Not answered		S9, S14
48	G. Access and Evidence	BLOCKER	C	**Can read-only access to platform metrics and system tables be provided**	4c · 5.2		Not answered	An area that cannot be provided drops out of scope	S14
49	G. Access and Evidence	BLOCKER	B · C	**How long are query logs, job history and metadata retained**	4b · 2.4 (driver 11), 5.2; 4c · 3.2 measurement window		Not answered	Under 30 days is a constraint, not an assumption	S10
50	G. Access and Evidence	Assumption	B · C	Can access to billing and cost data be provided (if Mode A in B: can it be exported and shared)	4b · 2.3 Platform Scalability & Cost, 5.2; 4c · 5.2		Not answered		In P0
51	G. Access and Evidence	Assumption	A · B · C	Can configuration, environment definition and access policy files be shared	4a/4b · 3.2 (P1); 4c · 3.3 (P1)		Not answered		In P0
52	G. Access and Evidence	Assumption	B	Can one load and one report be selected for end-to-end tracing	4b · 3.2 (P1, observation evidence)		Not answered		In P0
53	G. Access and Evidence	Assumption	B	Is access to data content required, or is metadata sufficient	4b · 5.2		Not answered		Stated in proposal
54	G. Access and Evidence	Assumption	C	Is running queries in the production environment permitted	4c · 5.2		Not answered		In P0
55	G. Access and Evidence	Assumption	C	Can a test or copy environment be used	4c · 5.2		Not answered		In P0
56	H. Target Level and Expectations	Assumption	B	Can a target level (1–5) be set for each of the eight areas; who will set it	4b · 2.3, 5.3; P0 deliverable		Not answered	The answer per area is entered in the table in section G of 3b	In P0
57	H. Target Level and Expectations	Assumption	B	Is there a mandatory standard, regulation or audit expectation	4b · 2.3 Governance & Security Modernization, 5.1		Not answered		In P0
58	H. Target Level and Expectations	Assumption	B	Who will the report be presented to — technical team or management	4b · 1, 4		Not answered		In P0
59	I. Organisation and Roles	BLOCKER	A · B · C	**Can a platform owner with access to configuration and environment information be assigned; can the relevant technical team be made available**	4a/4b/4c · 7.2, 5.3		Not answered		S4
60	I. Organisation and Roles	Assumption	A · B	Who is the project sponsor	4a/4b · 7.3		Not answered		In P0
61	I. Organisation and Roles	Assumption	A · B	Will the data engineering team join the interviews	4a/4b · 7.2, 6		Not answered		In P0
62	I. Organisation and Roles	Assumption	B	Will the security and infrastructure side be involved in the process	4b · 7.2, access approvals		Not answered		In P0
63	I. Organisation and Roles	Assumption	B	Can the consumer side — BI, analytics, ML — be interviewed	4b · 7.2; 2.3 ML & Feature Engineering Enablement, Query & Analytics Enablement		Not answered		In P0
64	I. Organisation and Roles	Assumption	C	Can a technical review be held to validate the findings	4c · 3.3 (validation and publication phase)		Not answered		In P0
65	I. Organisation and Roles	Assumption	A · B · C	Will the engagement be run remotely, on site or hybrid	4a/4b/4c · 5.4		Not answered		In P0
66	J. Commercial Framework	Assumption	A · B · C	Is there an approved budget	4a/4b/4c · 8.1		Not answered		Sales knows
67	J. Commercial Framework	Assumption	C	Can the external specialist cost be included in the budget	4c · 8.1		Not answered		Sales knows
68	J. Commercial Framework	Assumption	A · B · C	Schedule constraint — audit date, budget period, contract renewal	4a/4b/4c · 6		Not answered		Sales knows
69	J. Commercial Framework	Assumption	A · B · C	Procurement process and approval steps	4a/4b/4c · 9.1		Not answered		S1

MINIMUM QUESTION SET FOR THE PROPOSAL — 14 QUESTIONS

When these fourteen questions are answered, selected by the SERVICE column, the proposal can be written: seven questions for A, eight for B, nine for C. Twenty-nine of the sixty-nine questions in the list are combined here; the remaining forty stay in P0, on the sales side, or in the proposal as an assumption or statement.

#	BLOCK	SERVICE	QUESTION	WHY IT IS NEEDED	IF NO ANSWER	ANSWER	STATUS	QUESTIONS COVERED
S1	COMMON · DETAILS	A · B · C	**Which legal entities are in scope; is there an RFP or specification; how does the procurement process work?**	The cover, 1. Executive Summary and the 9.1 conditions are written from this. If there is an RFP, the proposal is structured accordingly.	**Proposal cannot be written**		Not answered	1, 4, 69
S2	COMMON · DECISION	A · B · C	**Which decision or technical problem will the engagement support; who will make the decision, and when? Is the expected result a red / amber / green status per heading (A), current and target level per area with a roadmap (B), or a measurement report on the selected areas (C)?**	Service selection depends on this answer. 1. Executive Summary and 2.1 Objective are written from it; the decision date determines the schedule and proposal validity.	**Service cannot be selected**		Not answered	6, 7, 8, 12
S3	COMMON · PLATFORM	A · B · C	**Which platform is to be assessed — lakehouse, warehouse or both; what are the product and version, table format(s) and query engine(s)?**	This is the basis of 2.4 Scope Size. In A and B, the number of table formats and engines is a band driver; in C, product and version are the input to the expertise check.	Band cannot be selected		Not answered	16, 24, 25, 26
S4	COMMON · ORGANISATION	A · B · C	**Can a platform owner with access to configuration and environment information be assigned; can the relevant technical team be made available?**	7.2 Expected participation and the 5.3 assumptions. If no platform owner is assigned, P1 takes longer and most of the evidence falls back to statements.	Schedule cannot be given		Not answered	59
S5	A · B · SCALE	A · B	**What are the approximate number of tables and the total data volume (raw or compressed)?**	The two dominant band drivers in A and B (2.4). Not asked in C, since the band there is determined by the number of selected areas.	Band cannot be selected		Not answered	36, 37
S6	A · SCOPE	A	**Are all six headings in scope; is an assessment of ML feeding or BI serving expected?**	4a 2.3 Assessment Headings and 2.5 Out of Scope. If ML feeding and BI serving are required, the right service is B.	Scope section cannot be written		Not answered	17, 18
S7	A · EVIDENCE	A	**How many people will be interviewed; can an architecture document, data flow diagram or similar document be shared?**	A's evidence is documents, interviews and walkthroughs; no system access is given. The number of interviews and the availability of documents directly determine the schedule.	Schedule cannot be given		Not answered	43, 44
S8	B · SCOPE	B	**Are all eight areas in scope; is any area to be excluded?**	The 4b 2.3 Assessment Areas and the «OUT-OF-SCOPE AREA» markers are filled in from this.	Scope section cannot be written		Not answered	19
S9	B · ACCESS MODEL	B	**Will the work be run in Mode A (guided — no system access, the customer team runs the control queries) or Mode B (read-only access)? If Mode B, how many steps does access approval involve and how long does it take; if Mode A, who runs the queries and how quickly are the outputs shared?**	Determines which of the «MOD A» / «MOD B» paragraphs is kept, the 5.2 assumptions and the schedule. Approval time (Mode B) or output delivery time (Mode A) cannot be offset by adding people.	Schedule cannot be given		Not answered	46, 47
S10	B · C · EVIDENCE CONSTRAINT	B · C	**How many days are query logs, job history and metadata retained?**	If below thirty days, evidence cannot be produced in some areas and the measurement window narrows. This is written as a constraint, not an assumption.	Scope reduction is stated in the proposal		Not answered	49
S11	C · PROBLEM	C	**How does the problem show itself today; which question is expected to be answered at the end of the work?**	4c 2.1 Objective and acceptance criterion are written from this. If the problem cannot be defined, the right service is A or B.	**Proposal cannot be written**		Not answered	13, 14
S12	C · AREA SELECTION	C	**Which areas are selected from the seven-area menu; approximately how many objects (tables, pipelines, jobs, queries) are in the selected areas?**	Duration and Komtaş effort are determined by the number of selected areas: 1–2 areas 2 weeks, 3–4 areas 3 weeks, 5–7 areas 4 weeks. 2.3 «SELECTED AREAS» is filled in from this.	Band cannot be selected		Not answered	20, 42
S13	C · EXPERTISE	C	**Does Komtaş have delivery experience on this platform; if not, will a named external specialist be engaged, and if not, which area is left out of scope?**	On a technology without experience, full measurement is not committed without a named external specialist. External specialist effort is priced on a separate line in 8.1. The experience part is an internal check and is not asked of the customer.	**Proposal cannot be written**		Not answered	34, 35
S14	C · MEASUREMENT ACCESS	C	**Can read-only access be granted to platform metric and system tables; how does the approval process work and how long does it take?**	All of C is based on measurement; an area where access cannot be provided is removed from scope. Approval time determines the schedule.	**Proposal cannot be written**		Not answered	47, 48

NOTE

S9, S10 and S14 are not an access list. Items such as catalogue export, billing data and configuration files are opened in one go in P0; S9 and S14 are asked at proposal stage because they change the schedule, and S10 because it changes the scope. The experience part of S13 is answered within Komtaş and is not asked of the customer. S1–S4 are common to all three services; if more than one service is proposed to the same customer, they are asked once.

40 QUESTIONS OUTSIDE THE PROPOSAL SET

They were not deleted; when they are asked has been clarified. Some are never asked — they are written in the proposal as an assumption or statement.

WHEN	COUNT	RATIONALE
In P0	26	Complaints and open issues, success criterion, previous attempts at the problem, out-of-scope and non-production environments, object storage, processing layer, orchestration, catalogue, deployment model, licence constraint, walkthrough, billing data, configuration and policy files, choice of end-to-end tracing, permission to query in production, test environment, target level per area, standards and audit expectations, report recipient, sponsor, data engineering team, security and infrastructure participation, consumer interviews, technical review, work location. Asked when the access list is opened and the interview plan is made.
Sales knows	7	Proposal recipient, proposal date, competitor situation, reuse of previous assessment and evidence inventory, budget, inclusion of external specialist cost in the budget, schedule constraint. The commercial framework is the responsibility of sales; it is taken from the CRM or the sales representative.
Assumption in proposal	6	Number of domains, number of streaming pipelines, daily incremental volume, number of source systems, number of environments, query volume and number of users. These are band drivers; the dominant band drivers (table count, data volume, table format and engine count) are in the minimum set. An unanswered driver is written into 2.4 Scope Size as a statement or assumption and verified in P0.
Stated in proposal	1	Access to data content. This is to be stated, not asked: 4b 5.2 states that the assessment is carried out on metadata and configuration.
Total	40	29 of the 69 questions were merged into the 14 questions of the Proposal Set; the remaining 40 were distributed across the four buckets above.

PROPOSAL READINESS STATUS

This sheet is calculated automatically. The decision on whether a proposal can be written is made separately for each service, based on the relevant questions on the Proposal Set sheet (SERVICE column).

MEASURE	A · HEALTH CHECK	B · MODERNIZATION	C · DEEP DIVE	DESCRIPTION
Number of proposal set questions	7	8	9	Common questions (S1–S4) and service-specific questions
Answered	0	0	0	STATUS column on the Proposal Set sheet
Partially answered	0	0	0	Written as an assumption in the proposal
Missing	7	8	9	Unanswered proposal question
Completion	0%	0%	0%	Answered / total
CAN THE PROPOSAL BE WRITTEN	**NO — 7 questions missing**	**NO — 8 questions missing**	**NO — 9 questions missing**	YES if missing is zero
Service questions (Questions)	37	48	32	Questions carrying the relevant letter in the SERVICE column of the full list
Service questions — deferred to P0	9	19	9	Asked in the first week of the work
Questions in the whole form	69			Reference: full list of 69 questions (3a, 3b, 3c deduplicated)
Deferred to P0 (all)	26			Asked in the first week of the work

Rule: a service's proposal is not written until that service's proposal set is complete. If it must be written, each missing item is written into section 5 of the proposal as an assumption and it is stated that the scope will be reassessed if that assumption does not hold.

STATUS BY SECTION

SECTION	QUESTION	BLOCKER	ANSWERED	MISSING BLOCKER
A. Organisation and Proposal Details	5	2	0	2
B. Decision and Problem Definition	10	5	0	5
C. Scope and Area Selection	8	4	0	4
D. Environment and Technology	10	3	0	3
E. Expertise Check	2	2	0	2
F. Scale and Volume	7	3	0	3
G. Access and Evidence	13	6	0	6
H. Target Level and Expectations	3	0	0	0
I. Organisation and Roles	7	1	0	1
J. Commercial Framework	4	0	0	0
Total	**69**	**26**	**0**	**26**

TO BE SENT TO THE SAT OFFICE AFTER THE MEETING

Once these items arrive, the proposal text can be produced.

#	ITEM	SENT	NOTE
1	This completed form (with the answers from the customer form entered)	No	
2	Your meeting notes — raw is fine, do not try to tidy them	No	
3	RFP / specification file, if any	No	
4	Architecture document, data flow diagram, inventory or organisation chart shared by the customer	No	
5	Service decision: A, B, C or a combination; if B, the access model (Mode A guided / Mode B read-only); if C, the selected areas	No	
6	Pricing decision: which band (for C, by number of selected areas); external specialist on a separate line, if any	No	
7	Team decision: which consultants will be assigned (for table 7.1); for C, the external specialist's name and area	No	

HOW TO USE

TWO-FILE SET-UP

Sent to the customer	lakehouse-assessment-5-musteri-soru-seti-en.xlsx — sixteen questions, a financial sector annex (six questions) and an information note. The SERVICE column states which service each question is required for. Assessment headings, areas, target levels, C area selection and methodology are not asked of the customer; Komtaş proposes them based on the answers.
This file (internal)	lakehouse-assessment-6-ic-soru-seti-en.xlsx — full list of 69 questions, the 14-question minimum set required for the proposal (by service: A 7, B 8, C 9) and those deferred to P0. Answers from the customer form are entered in this file and the proposal is written from here.
Minimum set logic	Twenty-nine of the sixty-nine questions have been merged into fourteen questions. S1–S4 are common to all three services; the others are service-specific. Because the remaining forty questions do not change the proposal, they have been left to the first week of the work (P0), to sales, or written in the proposal as an assumption or statement. Criterion: if doubling the number in the answer does not double the work, that question is not a proposal question.

SERVICE column	A · Health Check, B · Modernization Assessment, C · Technology Deep Dive. “A · B · C” marks a question asked in all three services, “B · C” one asked only in B and C. Once the service to be proposed is known, only the questions carrying that letter are needed.
Fields to fill in	On the Questions sheet, only the ANSWER (G), STATUS (H) and NOTE (I) columns are filled in; on the Proposal Set sheet, ANSWER (G) and STATUS (H). Yellow cells show the fields to fill in. Pre-written short explanations in the NOTE column may be added to without deleting them.
Other sheets	Figures on the Summary, Section Breakdown and Remaining sheets are calculated automatically; do not change them by hand.
PRIORITY — BLOCKER	The proposal is not written until this question is answered; it cannot be filled with an assumption. The row stays red. For questions that are a blocker in one service and an assumption in another, the distinction is noted in the NOTE column.
PRIORITY — Assumption	If left unanswered, it is written into section 5 of the proposal as an assumption.
STATUS — Answered	A clear answer was received. The row turns green.
STATUS — Partial	An answer was received but it is incomplete or unclear. Written as an assumption in the proposal.
STATUS — Not answered	Not yet asked, or no answer received.

“We don’t know” as an answer	This is also an answer and is often the first finding. STATUS is marked “Partial” and it is written in the NOTE field.
Writing the proposal	When the “CAN THE PROPOSAL BE WRITTEN” row for a service on the Summary sheet is YES, filling in that service's proposal template begins: for A lakehouse-assessment-4a-health-check-teklif-sablonu-en.docx, for B lakehouse-assessment-4b-modernization-teklif-sablonu-en.docx, for C lakehouse-assessment-4c-deep-dive-teklif-sablonu-en.docx.
WHERE IT FILLS IN THE PROPOSAL	Format is “4b · 2.4”: template (4a, 4b, 4c) and section number. “4a/4b/4c · 7.2” refers to the same section in all three templates.
Source	The questions were produced by deduplicating the files lakehouse-assessment-3a-health-check-girdi-formu-en.docx, lakehouse-assessment-3b-modernization-girdi-formu-en.docx and lakehouse-assessment-3c-deep-dive-girdi-formu-en.docx. The target level for B's eight areas and C's seven-area menu are each collected in a single row; the per-area answer is written in the table in the relevant input form. When a question's text changes, both Excel files are updated.

EXAMPLE ROW

QUESTION	ANSWER / STATUS / NOTE
How long are query logs, job history and metadata retained	“Query log 30 days, job history unknown” · Partial · “Job history retention to be verified in P0”
